GENERAL ALPHABETICAL INDEX

Volume 163 January — June 1965

A

ACCOUNTING
Pacific G&E's 'Don't pay credit' labels minimize payment errors Apr. 19 ..... *99

ADVERTISING
see also Public Relations 8
Northern States Power cartoon characters Homer and Roy explain rising bills to customers June 28 ..... *85

AIR CONDITIONING
AEP's 'Shangri-La' campaign sells air conditioning May 31 ..... *40
Total electric see **Electric Energy Marketing**

AIR POLLUTION
New York air foul, charges City Council unit (N) June 28 40
Pollution control problems must be faced, NCA hears (N) June 21 11

ANNIVERSARIES
Edison, Thomas Alva – birthday celebration Feb. 8 ..... *48
Steinmetz, Charles P. – giant among electrical engineers Apr. 5 ..... *56

APPLIANCES
Joint effort can triple appliance sales, Cook says (N) May 17 ..... *106
More attention asked for replacement market (N) May 17 41

AREA DEVELOPMENT
'Age of cities' raises challenges PCEA convention hears (N) June 28 138
Appalachia: the facts and the fancies (Ed) Feb. 8 7
Detroit Edison sponsors five-year research project on growth patterns May 17 ..... *81

ASIA
India – foreign aid helps India expand generation (N) June 14 142
India's push to electrify industry outlined by Phd (N) May 3 ..... *144
Macao – government calls for new tenders for supplying electricity Mar. 8 102
Taiwan to operate big natural gas-turbine facility (N) June 14 36

ASSOCIATIONS
American Nuclear Society meeting scores AEC siting, licensing Apr. 12 ..... *26
American Power Conference sees Alaska-Mexico grid coming soon May 31 ..... *48
APPA convention – public power faces woes; must find cheap energy May 24 ..... *19
California Power Users Assn. to push for public power, low rates Mar. 22 182
Canadian Electrical Associates told outage data key to better service (charts) Mar. 8 49
EEI's ac/dc research project discussed (N) Mar. 15 ..... *23
EEI maps $750,000 EHV research plan (N) Feb. 15 ..... *19
EEI – A. B. Morgan retires from EEI post (N) June 28 ..... *82
EEI president Robert T. Person will build on industry's strength – interview May 17 ..... *96
EEI Purchasing and Stores Committee 18th annual meeting May 31 ..... *39
EEI Sales Conferences honors utilities for outstanding sales promotion programs (N) Apr. 19 93
EEI speakers urge greater public involvement (Ed) May 17 7
EEI spells out policy on research June 7 ..... *18
EEI – 31st annual Sales Conference Apr. 19 ..... *80
EEI 33rd Annual Convention report May 17 ..... *95-102
EEI to expand desalting and other research projects (N) Jan. 18 12
EEI T&D Committee meeting – public acceptance seen as goal Feb. 8 155
EEI Workshop hears what an industrial power salesman should be Apr. 5 ..... *68
Electric Heating Assn case studies get good response June 14 ..... *73
Electric Heating Assn director spells out electric heating goals (N) May 31 13
Electric Heating Assn meeting – strong appeals needed to sell electric heating (N) June 14 83
Electrical Equipment Representatives Association discusses marketing and service (N) Mar. 22 143
IEEE – Don't miss the IEEE Summer Power Meeting (Ed) May 24 5
IEEE International Convention – economics, HVDC tests spark power sessions Apr. 19 ..... *84
IEEE Power Group deserves better backing (Ed) May 31 7
IEEE Region IV – design, requirements of NW interties told at meet (chart) June 14 74
IEEE Winter Power Meeting Feb. 22 ..... *96
NEMA changes scope of electric heating show (N) May 3 108
NRECA calls for stepped-up federal power expansion (N) Feb. 1 11
NRECA 23rd annual convention Feb. 8 ..... *45
Northwest Electric Light & Power Assn – call management UG pacemaker (N) June 28 136
PCEA annual engineering and operating conference: 500-kv ac activity cited May 3 ..... *70
PCEA 48th annual convention – 'age of cities' raises challenges (N) June 28 138
PEA System Planners need 21st-century thinking now Mar. 22 ..... *92
Public Utility Buyers Group of NAPA conference Mar. 15 ..... *19
SEE annual conference – meet hears preview of year 2,000, talks on today's problems Apr. 19 ..... *82
SEE E&O Conference -Don't take a back seat', industry urged June 28 ..... *96

ATOMIC ENERGY
see Nuclear Power 7

ATOMIC ENERGY COMMISSION
AEC and California make deal on nuclear plant (N) Jan. 11 37
California may bow out of agreement (N) Mar. 15 11
Awards contract for heavy water reactor (N) Jan. 25 25
Conservationists block overhead line in California (N) May 31 11
Contracts for 230-kv line to Stanford linear accelerator (N) May 3 34
Cuts electricity requirements $34-million (N) Feb. 22 45

(Ed) Editorial. *Illustrated. (N) News.

Nine Mile Point plant okay expected (N) Feb. 15 19
Estimated construction costs – IEEE session (table) Feb. 22 98
Oyster Creek decision to be reviewed again (N) Mar. 1 12
Proposes buy-back prices for nuclear fuel (N) Feb. 8 19

AWARDS
Delaware P&L Chairman, Frank P. Hyer, named "Engineer of Year" (N) Mar. 8 21
Edison Award – four utilities nominated for 1964 award (N) Feb. 22 88
Florida P&L gets Freedom award third time (N) Mar. 15 13
Lamm, A. Uno receives Lamme Medal Apr. 19 *84

B

BOILERS
Coal-flame scanner system promotes boiler safety at VEPCO's Chesterfield Station. Proffitt & Brown Jr. June 28 *88
Consolidated Edison's mock boiler trains future operators Mar. 29 *22
Failure in water-wall tube curtails service at Duquesne Light (N) Jan. 18 11
Highest capacity package boiler developed (N) Feb. 22 *144
Mathematical model for once-through boiler guides plant control designs – IEEE session Feb. 22 97
Public Service E&G orders boiler for Hudson #2 (N) Feb. 8 22
TVA contracts for world's largest steam boiler (N) May 31 14
TVA opens bids for boilers for turbine-generators (N) Apr. 12 14

BONNEVILLE POWER ADMINISTRATION
Detector locates underwater cable break May 31 *55
Earthquake jolts utilities (N) May 17 *82
Studied voted for 500-kv southern Idaho line (N) June 28 39
Submarine permits cable inspection at Puget Sound. L. A. Moore Apr. 5 *98
To hike rates 4% on firm power (N) Feb. 8 20

BRITISH ISLES
Advanced gas-cooled reactors to be used on 5,000 Mw program (table) June 7 *23
Britain raises demand rates for higher earnings (N) Feb. 8 20
Britons cozy up to storage heaters. J.H.M. Sykes June 21 *22
Dungeness B nuclear station – seven groups bidding Feb. 22 132
EHV underground cable system discussed. J.H.M. Sykes May 17 *114
Hydrocarbon-air fuel cell gets workout (N) Jan. 4 *20
U.S. reactors contend strongly in Britain Feb. 22 132

BUREAU OF RECLAMATION
see Reclamation Bureau 8

C

CABLES
BPA detector locates inderwater cable break May 31 *55
British Columbia plans underwater dc circuit (N) Jan. 25 80
Con Edison dc proof-tests 345-kv cable circuits Mar. 8 *58
Con Edison's 345-kv cable pulled in tunnel. John Bogdanowski Feb. 8 *73
English Channel cable faulted by fishing trawler (N) Jan. 18 11
Cable repaired (N) Feb. 22 45
Cross-channel dc cable still unlucky Apr. 12 22
Epoxy splice kits simplify subsurface splicing. Lee Colbert June 14 *118
Experimental shock-wave optimizes URD cable plowing May 3 116
EHV underground cable system discussed. J.H.M. Sykes May 17 *114
Forced cooling uprates underground system in France. Rollin & Tellier Apr. 19 *86
Forced oil cooling increases ampacity of pipe type cable – IEEE session Feb. 22 102
Konti-Skan dc link between Sweden and Denmark to soon operate fully (N) Apr. 19 40
Konti-Skan 250-kv dc link readied for full load (map) May 10 *24
Lightning studies benefit spacer cables at Public Service E&G. Thwaites & Stys (tables) Mar. 8 *52
Mechanized underground cable-handling cuts costs, time at Baltimore G&E. C.B. Bechtel May 31 *76
New Zealand's North, South isles linked by 25-mile, 500-kv dc cable Mar. 29 *24
Pipe-type cable lowered without splicing at Memphis Light, Gas and Water Div. W. H. Mangrum Jr. Apr. 5 *116
Pirelli opens EHV cable plant in England (N) May 31 *127
Plastic film prevents damage to underground cable Feb. 8 106
Puget Sound 115-kv cable water crossing described – IEEE session Feb. 22 102
69-kv polyethylene cable meets test at Tampa Electric. A.N. Darlington (table) May 24 24
Submarine permits cable inspection at Puget Sound. L. A. Moore Apr. 5 *98
Toledo Edison device spreads triplex cable easily. Don Dean June 14 *113
230-kv underground cable supply bulk power to 400-Mva substations of Los Angeles Dept. of Water & Power Feb. 22 *94
Vancouver Island supply to be boosted by dc transmission. Croft & Ellis (map & tables) May 31 *44

CANADA
British Columbia Hydro Arrow Dam contract let (N) Mar. 22 42
British Columbia rejects both bids for Arrow Dam project (N) Mar. 1 14
British Columbia plans underwater dc circuit (N) Jan. 25 80
British Newfoundland Corp suggests own lines to serve US loads (N) Apr. 26 *22
Dc transmission to boost Vancouver Island supply. Croft & Ellis (map & tables) May 31 *44
Capital expenditures – 1964-65 (tables) Jan. 25 106
FPC questions private US-Canada power exchange (N) Feb. 22 45
Foreign aid helps India expand generation (N) June 14 142
Hamilton Falls power sale – negotiations near critical stage (N) May 17 84
Hydro Quebec and British Newfoundland Corp negotiations over Churchill Falls (N) Apr. 5 19
Hydro-Quebec – insulation advance is key to air-break switches for 700-kv system. J. A. Turgeon (table) June 28 *104
Nova Scotia heavy-water plant planned (N) Feb. 1 *22
Ontario Hydro talks expansion of Fairport nuclear station Jan. 4 *19
Parking lots offer plug-in connections for block, interior auto warmers (table) Mar. 8 *47
Quebec gives British Newfoundland Corp ultimatum on power price (N) May 10 11

CAPACITORS
NW interties design, requirements told at IEEE meet (chart) June 14 74
Prices (N) Jan. 11-40, June 28 42
Soil heat tests yield useful thermal data for Arizona PS. J.F. Thomas Feb. 22 *90

CAPACITY ADDITIONS
Capacity additions reported to Electrical World by company – Kw (tables) Feb. 22 118
Generating capacity additions – thousands of Kw and % total U.S. (charts & table) Feb. 22 106
New capacity additions reported to Electrical World – Kw (table) Feb. 22 105
New capacity plans: 1965-70 Feb. 22 104
Number and installed capacity of electric utility generating plants by state and type of prime mover – Kw (table) Feb. 22 111

CARRIER CURRENT
see Communications, Controls 2, 3

CIRCUIT BREAKERS
Design 161-kv breakers for 25,000 Mva. McCord & Harper Jan. 11 *91
Hygrometer best for measuring moisture in SF_6. Aschoff & Shoulders Apr. 5 *80
Prices (N) Jan. 11-40, June 7-14, June 14-38, June 21 14
Prototype vacuum circuit breaker developed for 15-kv switchgear (N) May 24 *36
SF_6 gas recovery vehicle for CB's. Michael Levinson Feb. 8 *65
'Step' relay aids OCB recloser coordination. Wayne Burch Jan. 25 *116
VEPCO 500-kv SF_6 CB adaptable to many EHV levels. R.C. Van Sickle & others May 17 *92

COMMUNICATIONS
Alarm, control over VHF radio network. T. D. Saltzberg Jan. 11 *92
Communication channels use insulated shield wires on Georgia Power system. Wood & Price Feb. 8 *56
Dc mobile radios converted for base station use by Kentucky Utilities. M.S. Cobb (map) June 21 *28
Radio detects faulty voltage coil. J.H. Parsley May 31 *70

COMPUTERS
Alabama Power data logger records three supervisory systems. Paul Hopkins Mar. 22 *100
Boston Edison's data retrieval speeds decisions. C.W. Smith Jr. May 31 *51
Check on voltage drop, rise speeded with complex of curves developed with aid of computer at Con Edison. Serge Borodin (charts) Apr. 19 88
Computer system offers new control language (N) Feb. 22 *145
Computers: who has them and why (tables) Apr. 12 31
Detroit Edison mechanizes 1.7 million meter records. N.E. Cloar June 28 *91
Digital-analog computers optimize dispatching at Gulf States Utilities. A.J. Mary & others Apr. 5 *62
Distribution system planning automated. Montmeat & Patton Jan. 11 *82
Duke Power computer controls new unit's startup at Marshall Steam Station. W.S. Lee May 17 *85
First heat balance diagram is calculated and drawn by computer. Nery & Rice Apr. 19 *90
Florida Power's automatic load control system tests to begin (N) Jan. 4 12
GE to service some Bunker-Ramo computers (N) May 31 129
PEA System Planners – new computer programs optimize bulk power and distribution systems for electric heating Mar. 22 *92
PJM intertie operation to be supervised by computer (N) Mar. 15 23
Power for peaking report – Computer methods optimize capacity expansion. L.K. Kirchmayer & others (charts) May 3 84
Power for peaking report – Coordination is key to operation – computer program leads optimum schedules for pumped storage, run-of-river hydro and other peaking equipment coordinates these with thermal generation. L. T. Anstine (map & charts) May 3 101
Public Utility Buyers Group discusses use of computers Mar. 15 *19
Southern California Edison's automated paper work cuts bill of material costs. McPhee & Woodman June 28 *86
Train station operators on analog simulator. Whitesell & Bowles Apr. 5 *82
VEPCO's Mt. Storm startup controlled, monitored by computer. W.M. Wills & others (tables) Jan. 25 *82

CONDUCTORS
Aluminum conductor prices (N) Mar. 22 42
Escanaba Municipal Utility's improvised dampers halt galloping conductors. H. P. Germanson Apr. 5 102
500-kv twin conductor links up stations. Hileman & Guyker. (maps, charts & tables) Apr. 5 64
Georgia Power pulls six no. 2/0 copper conductors simultaneously. J. C. Cox Apr. 19 *100
Government stockpiling EHV conductor? (N) Feb. 15 14
Leather filler eases splice through block. Milton Landry Apr. 5 *90
Metal hold-strap aids high voltage deadening at Gulf States Utilities. R.J. Jarreau Jr. Mar. 8 *66
Oknoite plant completes 85 miles of 345-kv conductor (N) Mar. 29 *36
Plastic creep-effect – new towers need extra care in sagging. P.C. Evans (chart & tables) May 17 *87
Post-type insulators on concrete poles withstand broken conductor tests at Florida Power Corp. Ricketts & Fiero (chart) June 14 *80
Rome Cable submits low bid to supply Pacific NW-SW conductor (N) Mar. 15 14
TVA conductor contract to Olin Mathieson (N) Mar. 29 14

(Ed) Editorial. *Illustrated. (N) News.

CONNECTORS

Parallel-groove live-line connector cuts outages at Kansas G&E. B.N. Ruddick Mar. 22 *126
Separable connector key to submersible residential transformer. A.R. Waehner Apr. 5 *69

CONSTRUCTION

Aluminum 345-kv H-frames lower cost per mile for Central Illinois PS. T.N. Cofer (tables) Jan. 11 *78
Assembled structures moved 1,000 ft at Plymouth Meeting Substation. Murray & Brecht Jr. Feb. 15 *23
Bucket crane beats 90-ft work height at New Orleans PS. H.J. Edwards Mar. 22 *133
Buried 24-kv system serves du Pont plant. F.S. Deck May 17 *90
Calavar Corp. construction equipment manufacturing goes national (N) Apr. 5 *72
Central Illinois PS easy handling speeds aluminum tower building. T.N. Cofer Mar. 1 *28
Central Louisiana Electric 230-Mw unit installed for $61.50 /kw net at Coughlin Steam Plant. Chappuis & Kolflat Apr. 12 *24
Chopper speeds clearing of ROW at Wisconsin PS Apr. 5 *92
Cold-formed sections cut weight of transmission towers May 3 *115
Con Edison's 345-kv cable pulled in tunnel. John Bogdanowski Feb. 8 *73
Construction expenditures – thousands of dollars and % of total U.S. (charts) Jan. 25 96
Detroit Edison installs contoured pole-top transformers May 31 *60
Detroit Edison mounts temporary service on pedestal. Nelson & Houghton Jan. 25 *114
Electric Heating Assn case studies get good response June 14 *73
Electric Utility Methods – reports. M.G. McGraw Feb. 8 *71-136, Apr. 5 *75-138, May 31 *53 118
Experimental shock-wave optimizes URD cable plowing May 3 116
EHV transmission and distribution line construction (charts) Jan. 25 99
Fort Martin station under construction in West Virginia Feb. 15 17
Largest cooling tower rising at Fort Martin Feb. 15 *36
Georgia Power pulls six no. 2/0 copper conductors simultaneously. J.C. Cox Apr. 19 *100
Giant derrick designed for live line work (N) June 7 *36
Gulf States Utilities converts 69-kv line to 138-kv. J.E. Cryer Feb. 8 *91
Helicopters speed installation of roof ventilators at Central Illinois PS Apr. 5 *94
IBOE training program to inform all US construction equipment operators about the Allen System May 31 72
Konti-Skan 250-kv dc link readied for full load (map) May 10 *24
Lake-bottom bridge solves puzzler for Puget Sound P&L Feb. 8 *110
Light-weight, nylon-web hoist eases line work. L.B. Kent Feb. 22 *143
Louisiana P&L's latticed steel structures provide for load growth. Deloney & Lancaster May 31 *42
Mechanized underground cable-handling cuts costs, time at Baltimore G&E. C. B. Bechtel May 31 *76
Metal hold-strap aids high voltage deadending at Gulf States Utilities. R. J. Jarreau Jr. Mar. 8 *66
Meter-switch cubicle speeds 'sub' construction at Arkansas P&L. R. W. Toler May 31 *58
Mobile wheel excavator for contractors digs continuously (N) Apr. 26 *38
Motors – plan to avoid large motor problems. R. L. Nailen May 31 *86
New Orleans PS cites cost of underground 230-kv transmission cable Mar. 22 90
New Zealand's North, South isles linked by 25-mile, 500-kv dc cable Mar. 29 *24
Nine Mile Point nuclear station – estimated construction costs – IEEE session (table) Feb. 22 98
Pennsylvania Electric using spacer and open cable construction on distribution system. J.E. Davidson Jan. 4 *25
Pipe-type cable lowered without splicing at Memphis Light, Gas and Water Div. W.H. Mangrum Jr. Apr. 5 *116
Plastic creep-effect – new towers need extra care in sagging. P.C. Evans (chart & tables) May 17 *87
Pole-mounted auto transformers are economic Utah P&L finds. W.E. Clements & others. Jan. 25 *118
Prepackage service facilities to lower URD costs. E.K. Duffy Mar. 22 *137
Puget Sound 115-kv cable water crossing described – IEEE session Feb. 22 102
Robot rig speeds underground construction jobs for Southern California Edison. N.L. Clarine Apr. 5 *77
Secure cable grip for reverse pulling. H. J. Edwards Apr. 19 *98
Southern California Edison's automated paper work cuts bill of material costs. McPhee & Woodman June 28 *86
Special tool simplifies clamp installation at Pacific G&E. Charles Miller Feb. 8 *91
Splicing compound in container. Leon Babcock May 31 *68
Standardized truck aids line operations at Ohio Power. Winters & Parrish Feb. 22 *142
TVA's Tennessee-Mississippi line – new techniques speed construction. W.B. Richardson Feb. 15 *26
Tomorrow's URD takes shape – report. Julian Bleiweis (charts & tables) Mar. 22 *103-118
Tractor vehicle for impassable terrain Feb. 8 *95
Transformer-pole design cuts installation costs for Toledo Edison. Len Daum June 28 *110
Transmission and distribution construction by ownership and region, 1964-1965 (tables) Jan. 25 104
230-kv underground cables supply bulk power to 400-Mva substations of Los Angeles DW&P Feb. 22 *94
Understand 'safety factors' of construction rigs. R. J. Wacht (chart) May 31 100
VEPCO evolves construction methods for 500-kv project. J.A. Rawls Feb. 8 *58

CONTROLS

Alarm, control over VHF radio network. T.D. Saltzberg Jan. 11 *92
Coal-flame scanner system promotes boiler safety at VEPCO's Chesterfield Station. Proffitt & Brown Jr. June 28 *88
Florida Power's automatic load control system tests to begin (N) Jan. 4 12
Mathematical model for once-through boiler guides plant control designs – IEEE session Feb. 22 97
VEPCO's Mt. Storm startup controlled, monitored by computer. W.M.Wills & others (tables) Jan. 25 *82

COOPERATIVES

see also Rural Electrification Administration x
Behind REA's financing plans June 21 31
Colorado co-op ousts old board of directors (N) Feb. 15 133
Congressmen complains about lack of co-op 'yardstick' (N) June 7 13
Co-op exemption from FPC heard May 3 *65
Co-ops seek boost to $400-million in REA budget (N) May 10 12
Ellis voices growing frustration (Ed) Feb. 22 7
FPC-co-op bills – lag seen (N) Mar. 8 45
FPC permits lower rates to 15 co-ops (N) Mar. 15 23
Illinois legislature approves service-area bill (N) June 28 40
Injunction against co-ops should be made permanent (Ed) Apr. 19 7
Johnson says co-ops to electrify the world (N) May 24 12
NRECA calls for stepped-up federal power expansion (N) Feb. 1 11
NRECA convention – 'Get FPC off our backs,' says co-ops Feb. 8 *45
North Carolina companies, co-ops reach service-area pact Jan. 25 79
North Carolina companies, co-ops seek to trim issues Jan. 11 *69
North Carolina legislature passes service-area law (N) Apr. 26-13, May 10 20
North Carolina sets pattern for peace...While in New York the Power Authority and state differ (Ed) May 10 5
PS Indiana offers to talk with REA head (N) Jan. 25 26
South Dakota investor utilities and co-ops agree (N) Mar. 8 19
US Chamber of Commerce wants regulation of co-ops (N) Apr. 5 21
Yankee-Dixie Power Assn. plans huge pool (N) Apr. 12 11
Investor utilities may get bid to join pool (N, map) Apr. 19 79

CORPORATE CHANGES

I-T-E acquires Safety Switchboard Co. (N) June 14 38
Moloney Electric and Central Transformer plan merger (N) May 24 36
Three utilities study merger: Connecticut L&P, Western Massachusetts Electric Co. and Hartford Electric Co. (N) May 17 80

D

DESALINIZATION

California desalting project proposed (N) May 3 144
EEI to expand desalting and other research projects (N) Jan. 18 12
Ferguson, H.K. Co. announces nuclear power, desalting plant (N) Feb. 22 *147
Interior Dept signs design study contracts for desalting plant (N) Jan. 4 13
Low cost water predicted for nuclear desalinization plant (N) Feb. 15 14
Palo Seco station desalinization plant – controlled-flash-evaporation for economic dual-purpose water, power plant. Fiehn & Zizza Apr. 19 *96
President Johnson stresses anti-pollution and desalinization in State-of-the-Union address (N) Jan. 11 37
Senate Interior Committee approves White House desalting plan (N) June 28 39
United Arab Republic gets four bids on nuclear desalting facility (N) May 31 144
US Naval Base at Guantanamo Bay – water factory completed ahead of schedule (N) Mar. 8 *74

DIESEL POWER

Diesel-driven generator serves gasoline station Mar. 1 *17
Diesel-generator unit starts steam station for Atlantic City Electric. J.M. Kovago (chart) Feb. 8 *52
Power for peaking report –Diesel peaking units give economy, flexibility. F.W. Walker Jr. May 3 *96
Powerful diesel engine of compact design (N) May 3 *118

DISPATCHING

see Systems Engineering 10

DISTRIBUTION

CEA told outage data key to better service Mar. 8 49
Check on voltage drop, rise speeded with complex of curves developed with aid of computer at Con Edison. Serge Borodin (charts) Apr. 19 88
Color for overhead systems needs prompt decision (Ed) Jan. 11 7
Color for overhead urged by SEE group (N) Jan. 11 72
Color – "Guide for specifying light-colored components for overlead lines" developed by EEI (N) Jan. 18 12
Detroit Edison sponsors five-year research project on growth patterns May 17 *81
Distribution load study defines load and loss factors. Propst & Gangel (charts & table) May 3 *74
Distribution system planning automated. Montmeat & Patton Jan.11 *82
Escanabe Municipal Utility's improvised dampers halt galloping conductors. H.P. Germanson Apr. 5 102
EHV transmission and distribution line construction (charts) Jan. 25 99
EHV see also **Extra High Voltage**
Kansas City P&L vault accident (N) Feb. 15 11
Lightning arresters proportioned to outages. K.B. Powell (charts & table) Mar. 15 28
Marina City saves $383,000 through use of 12-kv risers (N) Mar. 29 12
Parallel-groove live-line connector cuts outages at Kansas G&E. B.N. Ruddick Mar. 22 *126
Pennsylvania Electric using spacer and open cable construction on distribution system. J.E. Davidson Jan. 4 *25
Pole-mounted auto transformers are economic Utah P&L finds. W.E. Clements & others Jan. 25 *118
Soil heat tests yield useful thermal data for Arizona PS. J.F. Thomas Feb. 22 *90
Southern California Edison's distribution transformer load management study brings savings. K.J. Bom Feb. 1 *26
Tampa Electric network substation designed for reliable supply. T. W. Patrick June 21 *24
Transformer-pole design cuts installation costs for Toledo Edison. Len Daum June 28 *110
Transmission and distribution construction, by region and ownership, 1964-1965 (tables) Jan. 25 104
Transmission and distribution expenditures thousands of dollars, 1964-1965 (tables) Jan. 25 102
Vertical distribution saves heating load for Portland GE in 16-floor apartment building. R.T. Beasley June 7 *24

DISTRIBUTION, UNDERGROUND

Buried 24-kv system serves du Pont plant. F.S. Deck May 17 *90
Conference on Natural Beauty urges expanded use of URD. May 31 *37
Conversion of overhead systems to underground – call management UG pacemaker (N) June 28 136
Forced cooling uprates underground system in France. Rollin & Tellier Apr. 19 *86
Is it too early to standardize URD? (Ed) Mar. 22 7
New Orleans PS reports conversion to underground distribution would cost $339 million, take 20 years June 28 *81
Portland GE transformers buried at near pad-mount cost. E.P. Verheiden Jan. 11 *74
Prepackage service facilities to lower URD costs. E.K. Duffy Mar. 22 *137
Tomorrow's URD takes shape - report. Julius Bleiweis (charts & tables) Mar. 22 *103-118
Far West: policy stresses total underground Mar. 22 104
Midwest: trench system serves 30,000 homes March 22 106
Southeast: 34.5-kv feeders in new development Mar. 22 108
Northeast: underground expansion slow Mar. 22 110
34.5-kv cable used for URD primary. Smith & Chiles Mar. 22 111
Buried system – result of two-year study E.R. Holcomb Mar. 22 112
All-underground system proves reliable R. R. Steinke Mar. 22 116
Union Electric provides URD to 1,676 new units (N) Mar. 8 46
Vertical primary serves high-use apartments. Hall & McGaughey May 10 *28

E

EDUCATION

Engineering education evaluated – IEEE session Feb. 22 102
Louisiana conference – educators profit from utility conference Mar. 29 20

ELECTRIC ENERGY MARKETING

Adirondack Community College seven-building college complex to have electric heat June 14 83
All-electric skyscraper in Chicago will use heat-with-light concept (N) June 14 *84
Allis-Chalmers – new top command sets sights on utility sales Feb. 8 *50
AEP's 'Shrangri-La' campaign sells air conditioning May 31 *40
Apartments go total electric at fast clip in Mississippi Feb. 8 *63
Appliances – 1965 retail sales may hit $11-billion (charts & tables) Feb. 22 153
Britons cozy up to storage heaters. J.H.M. Sykes June 21 *22
Canadian parking lots offer plug-in connections for block, interior auto warmers (table) Mar. 8 *47
Central Illinois E&G pushes foreign trade in landlocked areas. O.W. Pollard June 28 *101
Central Illinois Light customers help sell farm market. C.W. Cox June 14 *72
Chicago underground garage is all electric (N) June 28 *101
Chicago's North Park College dormitory will have electric heating (N) Feb. 22 *135
Cincinnati's Provident Tower to have all-electric heating and cooling (N) Feb. 22 *135
Coal joins utilities in effort to retain use of promotional payments (N) Feb. 22 87
Conference goers prefer facts (Ed) Apr. 19 7
Dayton P&L electric truck rally (N) Jan. 25 *110
Defense Dept. puts year moratorium on heat pumps (N) Apr. 19 41
Delaware P&L drops electric heating rebates (N) Jan. 11 37
EEI 31st annual Sales Conference – utilities praised and criticised for sales efforts on heating and appliances Apr. 19 *80
EEI Workshop hears what an industrial power salesman should be Apr. 5 *68
Electric heating: architects, engineers are important allies (Ed) Feb. 1 5
Electric Heating Assn. case studies get good response June 14 *73
Electric Heating Assn. director spells out electric heating goals (N) May 31 13
EHA meeting – strong appeals needed to sell electric heating (N) June 14 83
Electrical Equipment Representatives Association discusses marketing and service (N) Mar. 22 143
Floodlighting center attracts attention in Detroit (N) Apr. 5 *67
Florida Power lighting course attracts employees and trade allies (N) May 31 *123
GE develops high reliability heat pump for northern markets (N) June 28 *102
Heat pump helps electronics firm eliminate dust, cut costs Mar. 8 *64
High-level luminaires help lower costs at railroad repair shop (N) Jan. 25 *112
Infra-red lamps warm outdoor diners at Minneapolis hotel (N) Feb. 22 *137
Insurance provided for employees' heat pumps at Gulf States Utilities (N) Jan. 11 115
Joint effort can triple appliance sales, Cook says (N) May 17 *106
Kansas City P&L mobile display carries electric heating facts to employees (N) Jan. 25 *110
Kansas G&E installs 500 ft-c lightning in own office building Mar. 8 *63
LBE kicks-off springtime promotion with magazine ad (N) Mar. 22 124
Load growth: many problems, lots of potential June 7 31
Ludlow, Mass., showcase for electric heating – Western Massachusetts Electric's total-electric program Mar. 15 *24
Lurie Terrace apartment in Ann Arbor, Mich.– electric heat helps builder save on investment costs Mar. 8 *63
Moscow street lighting study June 7 *20
New way to gauge sales performance (charts & table) Mar. 8 87
1964 all-electric bills show reduction (N) Jan. 25 25
Now it's "Electric Energy Marketing" (Ed) Jan. 11 7
Outdoor lighting controls – prices (N) June 21 14
Philadelphia Electric testing Therm-Bank, capable of storing heat until needed (N) Mar. 22-41, Apr. 5 67
Portable classroom swings to all electric – Crow Island School, Winnetka, Ill. Jan. 11 *115
Promotional allowances program of Atlantic City Electric – competitors seek contract facts (N) Mar. 22 41
Promotional payment programs – pressure mounts to ban promotion pay Mar. 8 *43
Rockford, Ill. brightens up downtown area May 17 *83
Rutland, Vt. begins switch to mercury vapor street lighting Mar. 8 64
SEE meet hears preview of year 2,000, talks on today's problems Apr. 19 *82
Safer, stronger, lighter equipment offered: white concrete street lighting standards; precambered steel poles; lighter, stronger mastarms for highway lighting standards (N) June 21 *36
St. Louis senior-citizen's housing development to be served by gas Jan. 25 *77
Seattle, Wash. improves residential street lighting (N) Mar. 22 *121
Shannahan charts the course for heating (Ed) May 24 5
Surveys show high customer satisfaction with electric heating (N) June 14 84
Tampa Electric develops plan to replace obsolete incandescents Feb. 8 63
Texans plan all-electric building complex (N) Jan. 18 11
Texas-size buildings to go all electric Jan. 25 *77
Total-electric office buildings planned by Houston L&P and United Illuminating (N) May 31 *124
Utilities honored for outstanding sales promotion programs at EEI Sales Conference (N) Apr. 19 93
Westinghouse controlmobile to visit plant-sites (N) Mar. 8 *79
Winning architects and engineers to electric heat – utilities sponsor seminars Jan. 18 *24

EMPLOYEE TRAINING & WELFARE

see also Labor 6
Apprentice, graduate, supervisory training upgrades production men at South Carolina E&G. V.C. Summer Jan. 25 *88
Consolidated Edison's mock boiler trains future operators Mar. 29 *22
Florida Power lighting course attracts utility employees and trade allies (N) May 31 *123
IBOE training program to inform all US construction equipment operators about the Allen System May 31 72
Motivating employees with breadwinner economics Apr. 26 31
Pitman Manufacturing crew trained to teach aerial equipment safety procedures (N) Feb. 1 *36
Train station operators on analog simulator Whitesell & Bowles Apr. 5 *82
Trainer improves meter reading accuracy at Commonwealth Edison. E.A. Brady May 17 *110

ENGINEERS

AT&T executive spells out engineers' political role (N) Apr. 5 19
Education evaluated – IEEE session Feb. 22 102
EE student views industry employment. N.H. Woodley *55
How much do utility engineers earn? (charts) Feb. 1 31
How to attract student engineers. D.V. Menscer Jan. 11 *73
NSPE hits private engineering by federal agencies (N) May 24 11

East Europe makes new nuclear plans (N) Mar. 8 19
First gas-steam station nears readiness – Hohe Wand plant in lower Austria. F.H. Baer (chart & table) Jan. 4 *28
Forced cooling uprates underground system in France. Rollin & Tellier Apr. 19 *86
GE, German firm, form nuclear venture (N) June 7 12
GE and IRI to bid for Italian nuclear plant contracts (N) Jan. 25 28
Greece gets second plan for power and desalting (N) June 7 12
Italian power to look abroad for funds Apr. 19 *92
Konti-Skan dc link between Sweden and Denmark to soon operate fully (N) Apr. 19 40
Konti-Skan 250-kv dc link readied for full load (map) May 10 *24
Luxembourg – tiny Duchy hides huge pumped hydro station, Vianden, in mountain. J.H.M. Sykes Feb. 1 *24
Moscow street lighting study June 7 *20
USSR generates 459-billion kwhr in 1964 (N) Mar. 1 19

EXTRA HIGH VOLTAGE (EHV)

AEP sees need for 1,000-kv lines by century's end. Philip Sporn & others (charts) Mar. 22 96
Appalachia: the facts and the fancies (Ed) Feb. 8 7
Boom sparks interest in energy absorption – IEEE session Feb. 22 101
British Newfoundland Corp suggests own lines to serve US load (N) Apr. 26 *22
California 220-kv line – overhead? underground? Congress, courts, AEC involved in dispute June 14-70, (N) June 21 11
Cornwall project – FPC weighs EHV line routes (map) May 17 *79
EEI maps $750,000 EHV research plan (N) Feb. 15 *19
EHV underground cable system discussed. J.H.M. Sykes May 17 *114
500-kv ac activity cited to PCEA May 3 *70
500-kv line designs aired – IEEE session Feb. 22 *100
500-kv twin conductor links up stations: steam plants of Allegheny Power, AEP and VEPCO and Keystone. Hileman & Guyker (map, charts & tables) Apr. 5 *64
Giant EHV arresters pass full-scale tests (N) Mar. 1 *36
Keystone Project – 500-kv insulators tested (N) June 14 124
Pacific Northwest-Pacific Southwest Intertie "Droopy-ears" shape proves saver (table) May 3 *80
HVDC grounding 'reassuring not cause for alarm', says BPA (N) Apr. 19 79
HVDC terminal contracts let (map) May 10 19
Southern California Edison contracts for intertie lines (N) Apr. 19 42
Transmission and distribution line construction (charts) Jan. 25 99
VEPCO energizes 500-kv line from Dooms substation to Mt. Storm station May 24 18
VEPCO 500-kv SF_6 CB adaptable to many EHV levels. R.C. Van Sickle & others May 17 *92
Yankee-Dixie Power Assn. plans huge pool (N) Apr. 12 11
Investor utilities may get bid to join pool plan (map, N) Apr. 19 79

F

FEDERAL POWER COMMISSION

"Alaskan Power Survey" planned (N) Apr. 26 12
Con Edison Cornwall project clears FPC hurdle (map) Mar. 22 *89
FPC weighs EHV line routes (map) May 17 *79
Co-op exemption from FPC heard May 3 *65
Denies directorship to utility president (N) May 24 11
Eleven named to underground transmission group (N) May 24 11
Federal expansion of regulatory power attempted (N) Mar. 22 40
FPC legislative recommendations need study (Ed) Mar. 8 7
Holland Bill – FPC opposes changes in intrastate jurisdiction (N) Apr. 5 156
Holland Bill on FPC faces revision May 24 *17
Holland-Smathers bill – revised bill offered to restrict FPC June 21 *19
Lag seen on FPC-co-op bills (N) Mar. 8 45
National Power Survey
Interpreting the NPS report: that 1.2¢ average rate target (Ed) Jan. 18 5
New National Power Survey may be issued in 1968 (N) Mar. 29 11
Survey goals extended May 31 48
Nominees, Charles Ross and Carl Bagge, head for confirmation (N) Apr. 19-41, Apr. 26 *19
Opposes changes in intrastate jurisdiction (N) Apr. 5 156
Permits lower rates to 15 co-ops (N) Mar. 15 23
Requires hydro licensees to publicize recreation (N) June 14 36
Steam-electric plant report lists 'most efficient' generation (tables) Jan. 4 22
Swidler's contribution to the electric utility industry (Ed) June 21 5

FINANCIAL AFFAIRS

Behind REA's financing plans June 21 31
Business '65: question marks amid the affluence Jan. 25 135
Business will hopefully fete May 1 Mar. 29 31
Canadian capital expenditures – 1964-65 (tables) Jan. 25 106
Capital spending by regions – millions of dollars (charts & tables) Jan. 25 96
Capital spending – 1965 (charts & tables) Jan. 25 94
Copper's crystal ball says 'dig we must' (chart & table) June 28 125
Electric utility capital expenditures – millions of dollars, 1956-1965 (table) Jan. 25 95
Electrical utility capital spending – thousands of dollars, 1964-1965 (tables) Jan. 25 100
Five-year budget sets record, will strain resources (Ed) Jan. 25 7
How long can the boom hold up? May 31 131
Italian power to look abroad for funds Apr. 19 *92
Long-range capital budgets forecast – millions of dollars (tables) Jan. 25 98
Maintenance budgets – 1964-65 (chart & table) Jan. 25 108
McGraw-Hill 18th annual survey of business plans for new plants and equipment – Business will set more records in '65 (tables) May 3 129
Net incomes for 141 operating electric utilities (map & tables) May 10 31
New Orleans PS wins financing battle Feb. 15 18
New way to gauge sales performance (charts & table) Mar. 8 87
1965: 17 manufacturers predict continued high production (N) Jan. 11 94
Only need should dictate new systems (Ed) Apr. 26 5
President Johnson's budget reflects 'partnership' (table) Feb. 1 19
REA-financed systems (table) Feb. 22 112
Statistics (charts & tables) Feb. 22 113

FLY ASH

Bag filterhouse systems added to Air Preheater line (N) Mar. 8 74
Sintered fly ash goes to market – Consolidated Edison converting fly ash into lightweight aggregate June 28 *94
TVA Gallatin Steam Plant cuts cost of collecting fly ash samples Mar. 8 *68

FOREIGN TRADE

Central Illinois E&G pushes foreign trade in landlocked areas. O.W. Pollard June 28 *101
Oil imports – will Udall relax controls? Mar. 22 *91
Residual oil import restrictions on way out? (N) Apr. 12 11
TVA awards Italian manufacturer transformer order (N) June 28 42
US electrical machinery foreign activity drops (N) Jan. 11 96
Westinghouse gets order from Spain (N) Apr. 26 14

FUEL

AEC proposes buy-back prices for nuclear fuel (N) Feb. 8 19
Coal price increases expected to vary by areas (N) Jan. 11 40
Consumption of coal, oil and gas (chart & table) Feb. 22 110
Feasibility of purifying mine drainage to be studied (N) Jan. 18 13
Fuel cell systems developed for demonstration and education (N) May 17 *120
Fuels' growth for electric utilities predicted (chart & table) Feb. 15 31
Seven-truck convoy hauls 825 fuel elements for Peach Bottom (N) Feb. 8 *68
Southern California Edison announces fossil-fuel plant for Nevada (map) Jan. 4 *19

G

GENERATORS

Africa's generation plans altered by defective turbine (N) Mar. 8 20
Brazil harnesses mighty Parana River potential – Urubupunga project (map) Mar. 22 *94
Columbia, S.A. – power comes to Bogota village Mar. 22 *178
Conemaugh minemouth two-unit plant planned in western Pennsylvania (N) Feb. 1 13
Conemaugh Station – Middle Atlantic group plans another 1,800-Mw project in western Pennsylvania (map) Feb. 15 *17
Conservationists spark utility siting battles Apr. 5 *51
Consolidated Edison's Ravenswood's 1,000 Mw unit on line June 14 *69
Diesel-generator unit starts steam station for Atlantic City Electric. J.M. Kovago (chart) Feb. 8 *52
Edison Sault Electric's hydro's 55 generators converted to 60-cycle (N) June 28 *112
Europe's first gas-steam station nears readiness – Hohe Wand plant in lower Austria. F.H. Baer (chart & table) Jan. 4 *28
FPC steam-electric plant report lists 'most efficient' generation (tables) Jan. 4 22
Florida Power's coal-burning electric generating station will have automated coal-handling system (N) Apr. 19 106
Fort Martin station under construction in West Virginia Feb. 15 17
Largest cooling tower rising at Fort Martin Feb. 15 *36
Interior talks with WEST private-public group (N) June 7 11
Knapp and Waring defend plant siting by utilities Mar. 22 179
Luxembourg – tiny Duchy hides huge pumped hydro station, Vianden, in mountain. J.H.M. Sykes Feb. 1 *24
Mountain-Midwest Power Pool formed in Colorado (N) May 3-32, May 10 20
Northern States Power St. Croix site decision delayed Jan. 25 *81
Oil bids to enter 'total-energy' race (table) Mar. 1 *17
Palo Seco station desalinization plant – controlled-flash-evaporation for economic dual-purpose water, power plant. Fiehn & Zizza Apr. 19 *96
Power for peaking – report. W.D. Brown (charts & tables) May 3 *81-104
Load cycles and power costs set pattern for peaking May 3 82
Computer methods optimize capacity expansion. L.K. Kirchmayer & others May 3 84
Injection boosts gas turbine output. Stephens & Boho May 3 87
Pumped storage ups hydro complex availability. May 3 90
Jet turbine cuts cost, starts fast. J.A. Delistovic May 3 93
Diesel peaking units give economy, flexibility. F.W. Walker Jr. May 3 96
Steam unit gives spinning reserve, 20% peaking. Laffoon & Arfman May 3 98
Coordination is key to operation. L.T. Anstine May 3 101
Power for peaking comes from many sources (Ed) May 3 7
PS of Colorado chooses HTGR for state's first commercial-size nuclear plant (N) June 28 *131
Southern California Edison and Arizona PS ask bids for two 750-Mw units (N) Mar. 8 45
Southwestern PS – how we fight isolated generation. R.K. Owen June 28 *83
Southwestern PS puts generators at customers' plants. R.K. Owen Apr. 26 *28
Start-up temperature of turbines controlled at Florida Power. G.W. Marshall (charts) May 3 72
TVA thermal plant, Widows Creek, becomes largest in US (N) Mar. 1 11
10th nuclear power report: power boom takes off. L.M. Olmsted (tables) June 14 *85-104
Oyster Creek BWR sets 4-mill target. D.H. Kregg & others June 14 87
Connecticut Yankee advances PWR concept. D.E. Vandenburgh & others June 14 91
World survey collects statistics of 84 units June 14 95
3,000-Mw plants slated for US, Canada (map) Jan. 4 *19
Twelve 500-Mw generators being built for English power plants (N) Feb. 8 *68
Utility generation up 7.2% in 1964 (N) Jan. 4 11
VEPCO's Mt. Storm startup controlled, monitoried by computer. W.M. Wills & others (tables) Jan. 25 *82

H

HEAT PUMPS

All-electric development has 100 heat pumps – Westchester County, N.Y. (N) May 17 104
GE develops high reliability heat pump for northern markets (N) June 28 *102

HEATING

NEMA changes scope of electric heating show (N) May 3 108

LIGHTING, STREET

Denver being relighted entirely by mercury-vapor street lighting May 3 105
Jersey City, N.J. crash street lighting program boosts intensities Apr. 19 *93
Rockford, Ill. – first poles and lights shipped for whiteway project (N) Mar. 1 *36

LITIGATION

Baltimore G & E appeals undergrounding decision (N) Feb. 22 47
Philadelphia submetering case headed for higher court (N) Feb. 1 22
Taum Sauk decision overturned by US Supreme Court (N) May 10 12

LOAD CHARACTERISTICS

AEP sees need for 1,000-kv lines by century's end. Philip Sporn & others (charts) Mar. 22 96
Distribution load study defines load and loss factors. Propst & Gangel (charts & table) May 3 *74
Load growth: many problems, lots of potential June 7 31
Power for peaking – report. W.D. Brown (charts & tables) May 3 *81-104
Load cycles and power costs set pattern for peaking May 3 82
Power for peaking comes from many sources (Ed) May 3 7
Southern California Edison's distribution transformer load management study brings savings. K.J. Bom Feb. 1 *26
Vertical distribution saves heating load for Portland GE in 16-floor apartment building. R.T. Beasley June 7 *24
Winter pool peaks up 11.8% (tables) Feb. 1 17

M

MAINTENANCE

Blend solvents for cleaning electrical equipment. J. J. Howanitz June 14 114
BPA detector locates underwater cable break May 31 *55
Budgets – 1964-65 (chart & table) Jan. 25 108
Cooling Tower Institute rebuked for failure to protect wood against deterioration, minimal use of new materials Feb. 22 131
Detroit Edison's eases shear-pin replacement in feeder drive. J.W. Arnold Jan. 11 *89
Device checks auto booster operation. E.B. Rolien May 31 *92
Electric Utility Methods – reports M.G. McGraw Feb. 8 *71-136, Apr. 5 *75-138, May 31 *53-118
Filter transformer-oil for less. Michael Corrigan May 17 *112
Flexible nozzle aids slag removal at Gallatin Apr. 5 *92
Jig makes chain saw sharpening easier Feb. 8 *82
Level gauges up visibility, cut maintenance Apr. 5 *108
Lightweight stand for emergencies May 31 *94
Motors – plan to avoid large motor problems. R.L. Nailen May 31 *86
New Orleans PS improvised tools save time. H.J. Edwards Apr. 5 *100
Nylon rope-within-rope cuts barge tie-up line cost for Commonwealth Edison. C.F. Wetzel Apr. 5 *86
Paint – stainless steel paints make more progress. E.J. Higgins June 28 *108
Plastic cap retards pole top rot May 31 *82
Plastic cover makes better seal May 31 *84
Plastic creep-effect – new towers need extra care in sagging. P.C. Evans (chart & tables) May 17 *87
Plastic film prevents damage to underground cable Feb. 8 106
Quick-disconnect couplings cut truck downtime. W.M. Jewell Feb. 8 *78
Radio detects faulty voltage coil. J.H. Parsley May 31 *70
Rapping device keeps birds from roosting. C.H. Bell May 31 96

(Ed) Editorial. *Illustrated. (N) News.

Repair broken leads May 31 80
River-going rake handles trash at TVA plant Jan. 25 *118
STOL-type plane patrols line for Iowa-Illinois G&E May 17 *110
Scaffold speeds conveyor painting at TVA's Paradise Plant Mar. 8 *68
Shop-built rig drives turbine spindle May 31 *96
Shop-drill lead sleeves for less. C.P. Scheer Feb. 22 *140
Southern California Edison's work simplification program solves garage-lot problems Feb. 8 *80
Spray-nozzle clamp fits all transformers. V.H. Kirby Feb. 8 *96
Stand speeds assembly of metering devices at Southwestern PS. C. Madison Feb. 8 *82
Storm booths help speed restoration of service at Dayton P&L. R.L. Stump Mar. 8 *50
Stripping insulation from polyethylene spacer-cable easily May 31 *68
Submarine permits cable inspection at Puget Sound. L.A. Moore Apr. 5 *98
Telescoping rod reaches high places Feb. 8 97
TVA uses Polaroid cameras for on-the-spot photos Apr. 5 104
Toledo Edison device spreads triplex cable easily. Don Dean June 14 *113
Transformers' moisture removal, oil impregnation speeded (N) May 10 *36
Weed growth ended with fiberglass mat Feb. 8 108
Wood pole decay – treat or replace? H. Gerber (chart) Jan. 18 26

MANAGEMENT

Alcoholics – aiding alcoholics saves men, money Jan. 11 105
Allis-Chalmers – new top command sets sights on utility sales Feb. 8 *50
Born before 1925? You may have problems – Should managers have to face the '40 syndrome'? Jan. 4 31
Boston Edison's data retrieval speeds decisions. C.W. Smith Jr. May 31 *51
Business '65: question marks amid the affluence Jan. 25 135
Computers; Who has them and why (tables) Apr. 12 31
EEI speakers urge greater public involvement (Ed) May 17 7
EE student views industry employment. N.H. Woodley Apr. 5 *55
Executive development: the missing ingredients May 24 31
Morgan, A.B. retires from EEI post (N) June 28 *82
New way to gauge sales performance (charts & table) Mar. 8 87
SEE E&O Conference – 'Don't take a back seat', industry urged June 28 *96
URD – conversion of overhead systems to underground – call management UG pacemaker (N) June 28 136
Was that meeting necessary? (table) Apr. 5 145
Westinghouse reliability program aids cost reduction Mar. 22 144
What psych tests mean to management Mar. 22 173

MATERIALS HANDLING

Articulated wheel dozers are versatile Mar. 8 *66
Cart eases handling of nitrogen cylinders Apr. 5 *118
Coal hauler cuts handling costs. R.H. Kress May 31 *125
Coal hoppers carry 105 tons each (N) Apr. 5 *71
Electric lift eases stores handling. R.T. Bingham Apr. 19 *98
Float-on, float-off barge carrier developed (N) May 17 *116
Florida Power's coal-burning electric generating station will have automated coal-handling system (N) Apr. 19 106
Giant derrick designed for live line work (N) June 7 *36
Hooks provide secure tie-down during transport at Detroit Edison. Edward Rogal Feb. 8 *81
Leather filler eases splice through block. Milton Landry Apr. 5 *90
Light-weight, nylon-web hoist eases line work. L.B. Kent Feb. 22 *143
Mechanized underground cable-handling cuts costs, time at Baltimore G&E. C.B. Bechtel May 31 *76
Nylon rope-within-rope cuts barge tie-up line cost for Commonwealth Edison. C.F. Wetzel Apr. 5 *86
160-ton turbine stay-ring shipped from Baldwin-Lima-Hamilton (N) Mar. 8 *79
One-man rig facilitates equipment handling. Major & Reid May 3 *109
Rail shipment damage to transformers cut with tie-down method (N) Apr. 26 *38
Ratchet attachment increases hoist usefulness May 17 *112
Self-propelled trailer handles six-ton reel May 31 *80
Seven-truck convoy hauls fuel elements for Peach Bottom (N) Feb. 8 *68
Store pulverizer balls conveniently. J.L. Johnstone Feb. 8 *102
Terminal to transship coal to Florida utilities (N) May 10 *36
350-ton steel vessel on 2,000 mile trip to 450-Mw nuclear plant (N) May 3 *118
Throwaways used for oil samples Feb. 8 *110
Transformer shipping tested in coast-to-coast trip (N) Jan. 11 98
VEPCO moves power transformers via barge. W.C. Cranford May 3 *114
Wind full reels of used wire. William Koapke May 31 *70

METERS & MEASURING

Demand meters in extreme temperature. E.G. Howe Feb. 8 66
Determine power factor easily. A.C. Scott Apr. 19 99
Detroit Edison mechanizes 1.7 million meter records. N.E. Cloar June 28 *91
Developments of new products announced (N) Mar. 22 *140
Duke Power solves tough metering problem. Rupert Lail Feb. 8 *84
Errors in metering a three-phase four-wire circuit are analyzed. G.J. Wey Feb. 22 *138
GE reduces price of network meter (N) Apr. 19 42
Hygrometer best for measuring moisture in SF6. Aschoff & Shoulders Apr. 5 *80
Meter pedestal system handles underground distribution functions (N) May 31 *127
Meter-switch cubicle speeds 'sub' construction at Arkansas P&L. R.W. Toler May 31 *58
Non-stop monitoring assures best feeder voltage. J.A. Hughes & others Apr. 26 *24
Proximity detection and measuring system developed (N) May 31 *128
Selective sample testing applied to small family of meters by Iowa-Illinois G&E R.V. Marhem Feb. 22 *92
Stand speeds assembly of metering devices at Southwestern PS. C. Madison Feb. 8 *82
Trainer improves meter reading accuracy at Commonwealth Edison. E.A. Brady May 17 *110

MICROWAVE

RELAYS

Audio tones protect terminals economically on Gulf States Utilities system. F.B. Larriviere Jan. 18 *28
Blocking scheme solves 'coupling' problems. A.G. Daniels Jan. 11 *90
Georgia Tech hosts relay engineers (N) June 14 141
Low-voltage dc checks current-polarized directional ground relays. W.A. Wolfe Feb. 8 *98
Relay group meets in Texas (N) June 14 162
Remote daily tests of directional comparison relay carrier. A.G. Daniels Feb. 8 *98
Static relays open door to improved protection. Mariene & Russ Feb. 8 *54
'Step' relays aids OCB recloser coordination. Wayne Burch Jan. 25 *116
Unit simplifies precision relay testing (N) Jan. 25 *124

RESEARCH

Ad Hoc Committee on Research Development recommends formation of "Joint Electric Power Research & Development Council" Mar. 22 *87
'Age of cities' raises challenges – PCEA convention hears (N) June 28 138
Continuous process produces copper rod (N) May 17 *120
Controlled-flash-evaporation for economic dual-purpose water, power plant. Fiehn & Zizza Apr. 19 *96
Copperweld Steel facility replaces two demolished by tornado (N) Jan. 25 *124
Detroit Edison sponsors five-year research project on growth patterns May 17 *81
EEI's ac/dc research project discussed (N) Mar. 15 *23
EEI maps $750,000 EHV research plan (N) Feb. 15 *19
EEI spells out policy on research June 7 *18
EEI to build major research lab in Philadelphia (N) Apr. 26 11
EEI to expand desalting and other research projects (N) Jan. 18 12
Electricity utility directory lists Latin American data (N) Feb. 22 160
First things first in underground transmission (Ed) Mar. 1 5
Fuel cell converts gases from coal into electricity (N) Apr. 5 *70
Fuel cell systems developed for demonstration and education (N) May 17 *120
Hydrocarbon-air fuel cell gets workout (N) Jan. 4 *20
Joint Research Council to hold first meet April 9 (N) Apr. 5 59
Lightning theories may change designs – IEEE session Feb. 22 99
New research council deserves industry support (Ed) Mar. 29 5
PEA System Planners – planners need 21st-century thinking now Mar. 22 *92
Preview of new apparatus given AEIC group (N) June 14 *124
Steinmetz, Charles P. – giant among electrical engineers Apr. 5 *56
Thermionic converter (N) Apr. 5 *70
Westinghouse researchers operate standard TV set with fuel cell powered by "handful of powdered coal" (N) Feb. 1 13
Will the water supply last? May 17 151

RIGHT-OF-WAY

Chopper speeds clearing of ROW at Wisconsin PS Apr. 5 *92
North Carolina cover crops ease ROW upkeep Mar. 22 *133
Space above railroads urged for power lines (N) Apr. 12 *36
Weed growth ended with fiberglass mat Feb. 8 108

RURAL ELECTRIFICATION

Central Illinois Light customers help sell farm market. C.W. Cox June 14 *71
Ellis voices growing frustration (Ed) Feb. 22 7

RURAL ELECTRIFICATION ADMINISTRATION

Behind REA's financing plans June 21 31
Comptroller General may look into co-op loan (N) June 14 35
Congressional watchdog sees $3.9 million saving on REA loans (N) Jan. 25 80
Co-ops seek boost to $400-million in REA budget (N) May 10 12
Loans in 1964 (N) Jan. 4 12

Manufacturing (tables) Feb. 22 116
New capacity additions reported to Electrical World – Kw (table) Feb. 22 105
Number and installed capacity of electric utility generating plants by state and type of prime mover – Kw (table) Feb. 22 111
REA-financed systems (table) Feb. 22 112
Sales, revenue, customers, capacity (charts & tables) Feb. 22 108
Transmission and distribution construction, by region and ownership, 1964-1965 (tables) Jan. 25 104
Transmission and distribution expenditures thousands of dollars, 1964-1965 (tables) Jan. 25 102
What's the power picture now? Apr. 19 115

STEAM STATIONS

Central Illinois PS mine-mouth plant costs $114 per kw (N) May 31 141
Central Louisiana Electric 230-Mw unit installed for $61.50/kw net at Coughlin Steam Plant. Chappuis & Kolflat Apr. 12 *24
Conemaugh minemouth two-unit plant planned in western Pennsylvania (N) Feb. 1 13
Conemaugh Station – Middle Atlantic group plans another 1,800-Mw project in western Pennsylvania (map) Feb. 15 *17
Consolidated Edison's Ravenswood's 1,000 Mw unit on line June 14 *69
Detroit Edison study yields new concept for tall stack design. Smith & McCarthy (charts) June 14 *76
Diesel-generator unit starts steam station for Atlantic City Electric. J.M. Kovago (chart) Feb. 8 *52
Duke Power's Marshall Steam Station – computer controls new unit's startup. W.S. Lee May 17 *85
Europe's first gas-steam station nears readi-

ness – Hohe Wand plant in lower Austria. F.H. Baer (chart & table) Jan. 4 *28
FPC steam-electric plant report lists 'most efficient' generation (tables) Jan. 4 22
Fort Martin station under construction in West Virginia Feb. 15 17
Largest cooling tower rising at Fort Martin Feb. 15 *36
Knapp and Waring defend plant siting by utilities Mar. 22 179
Mathematical model for once-through boiler guides plant control designs – IEEE session Feb. 22 97
Northern States Power St. Croix River Plant–Wisconsin moves against Minnesota-approved plant (N) June 21 11
Northern States Power St. Croix site decision delayed Jan. 25 *81
NSP wins, starts building on St. Croix June 7 *17
San Diego G&E's South Bay No. 3 steam unit gives spinning reserve, 20% peaking. Laffoon & Arfman (charts) May 3 *98
3,000-Mw plants slated for US, Canada (map) Jan. 4 *19
VEPCO's Chesterfield Station – coal-flame scanner system promotes boiler safety. Proffitt & Brown Jr. June 28 *88
VEPCO's Mt. Storm startup controlled, monitored by computer. W.M. Wills & others (tables) Jan. 25 *82
Widows Creek of TVA largest US steam-electric station (N) Mar. 8 *45

STORMS

AEP System rebuilds after worst tornado damage May 3 *68
AEP utilities put tornado damage at $4-million (N) May 3 31
Battered Pacific utilities dig out Jan. 18 *23
Chicago area storm knocks out 200,000 customers (N) Feb. 1 11
Coast utilities suffer storm, flood damage (N) Jan. 11 *71
Commonwealth Edison plagued by storms Feb. 8 *47
Minneapolis, Minn. tornado topples towers, structures (N) May 24 *22
Northwest utilities jolted by earthquake (N) May 11 *82
Portland GE Clackamas River station hit by flood (N) Jan. 4 22
PS of Colorado hit by tornados and flash flood (N) June 21 13
Tornado-hit utilities near normalcy May 10 *23
Utilities suffer extensive storm damage in Midwest (N) Apr. 19 39

SUBSTATIONS

Assembled structures moved 1,000 ft at Plymouth Meeting Substation. Murray & Brecht Jr. Feb. 15 *23
Design substations to be seen, not hidden. T.H. Progler Feb. 22 *138
Meter-switch cubicle speeds 'sub' construction at Arkansas P&L. R.W. Toler May 31 *58
San Diego G&E camouflages substation to look like a home Apr. 19 *98
Set distribution station design at Kansas City P&L. W.E. Dickinson Mar. 1 *22
Southern California Edison's automated paper work cuts bill of material costs. McPhee & Woodman June 28 *86
Tampa Electric network substation designed for reliable supply. T.W. Patrick June 21 *24

SWITCHES & SWITCHING

Alabama Power updates switches on 115-kv as capacity, other factors change. F.S. Toomer Mar. 8 *56
Allis-Chalmers raises instrument and control switch prices (N) Mar. 8 22
Allis-Chalmers raises price of 5 kv and 15 kv metalclad switchgear (N) Jan. 4 14
EHV boom sparks interest in energy absorption – IEEE session Feb. 22 101
Insulation advance is key to air-break switches for hydro-Quebec 700-kv system. J.A. Turgeon (table) June 28 *104
Phase transfer device cuts outage time at Maine PS. D.E. Gaiennie Apr. 5 *126
34.5-kv switchgear meets 'high rise' challenge. R.I. Carlson Jan. 25 *122
Vacuum interrupters from GE available to OEMs (N) Mar. 22 143
Wisconsin Electric Power to install new 34.5-kv metal-clad switchgear (N) Apr. 19 *107

SYSTEMS ENGINEERING

Alabama Power data logger records three supervisory systems. Paul Hopkins Mar. 22 *100
Boston Edison's data retrieval speeds decisions. C.W. Smith Jr. May 31 *51
CEA told outage data key to better service (charts) Mar. 8 49
Digital-analog computers optimize dispatching at Gulf States Utilities. A.J. Mary & others Apr. 5 *62
Distribution system planning automated. Montmeat & Patton Jan. 11 *82
Duke Power computer controls new unit's startup at Marshall Steam Station. W.S. Lee May 17 *85
First heat balance diagram is calculated and drawn by computer. Nery & Rice Apr. 19 *90
Non-stop monitoring assures best feeder voltage. J.A. Hughes & others Apr. 26 *24
PEA System Planners – planners need 21st-century thinking now Mar. 22 *92
Power for peaking – report. W.D. Brown (charts & tables) May 3 *81-104
Sierra Pacific Power's circular operations building is efficient Apr. 5 *118
Southern California Edison's automated paper work cuts bill of material costs. McPhee & Woodman June 28 *86
Storm booths help speed restoration of service at Dayton P&L. R.L. Stump Mar. 8 *50
Tampa Electric operates rebuilt dc network analyzer out of file cabinet. M.M. Bostian Apr. 5 *124
VEPCO's Mt. Storm startup controlled, monitored by computer. W.M. Wills & others (tables) Jan. 25 *82

T

TAXES

Tax climate: what to watch for Feb. 8 141

TENNESSEE VALLEY AUTHORITY

Awards ACSR contract (N) May 3 34
Awards Italian manufacturer transformer order (N) June 28 42
Cart eases handling of nitrogen cylinders at Gallatin plant Apr. 5 *118
Conductor contract to Olin Mathieson (N) Mar. 29 14
Contract for transformer bank (N) Apr. 5 22
Contracts for world's largest steam boiler (N) May 31 14
Design 161-kv breakers for 25,000 Mva. McCord & Harper Jan. 11 *91
Flexible nozzle aids slag removal at Gallatin plant Apr. 5 *92
Gallatin Steam Plant cuts cost of collecting fly ash samples Mar. 8 *68
New techniques speed construction of 500-kv line. W.B. Richardson Feb. 15 *26
River-going rake handles trash Jan. 25 *118
SCEC-TVA intertie energized May 24 18
Scaffold speeds conveyor painting at Paradise plant Mar. 8 *68
Small hazards get special attention Feb. 8 *104
Ten-year exchange pact with Southern Co (N) June 14 72
Widows Creek largest US steam-electric station (N) Mar. 1-11; Mar. 8 *45

TESTING & TESTS

Aerial buckets tested in plant at 100 kv (N) Jan. 4 *36
Consolidated Edison builds analyzer for testing electronic tubes. C.A. Wroblewski Mar. 22 *128
Con Edison dc proof-tests 345-kv cable circuits Mar. 8 *58
Detroit Edison study yields new concept for tall stack d sign. Smith & McCarthy (charts) June 14 *76
Device checks auto booster operation. E.B. Rolien May 31 *92
Double-dose testing for 500-kv transformer (N) Jan. 11 *96
Experimental shock-wave optimizes URD cable plowing May 3 116
500-kv insulators tested for Keystone Project (N) June 14 124
Giant EHV arresters pass full-scale tests (N) Mar. 1 *36
Hygrometer best for measuring moisture in SF_6. Aschoff & Shoulders Apr. 5 *80
IEEE International Convention – economics, HVDC tests spark power sessions Apr. 19 *84
Low-voltage dc checks current-polarized directional ground relays. W.A. Wolfe Feb. 8 *98
Machines developed for testing safety equipment (N) June 7 *36
Post-type insulators on concrete poles withstand broken conductor tests at Florida Power Corp. Ricketts & Fiero (chart) June 14 *80
Remote daily tests of directional comparison relay carrier at South Carolina E&G. A.G. Daniels Feb. 8 *98
San Francisco to begin ac, dc rapid transit tests May 3 *78
Selective sample testing applied to small family of meters by Iowa-Illinois G&E. R.V. Marhem Feb. 22 *92
735-kv transformer developed and tested. J.W. Dix Mar. 8 *70
69-kv polyethylene cable meets test at Tampa Electric. A.N. Darlington (table) May 24 24
Soil heat tests yield useful thermal data for Arizona PS. J.F. Thomas Feb. 22 *90
Therm-Bank, capable of storing heat until needed, being tested by Philadelphia Electric (N) Mar. 22 41
Unit simplifies precision relay testing (N) Jan. 25 *124
VEPCO 500-kv transformer trouble explained (N) Feb. 22 88
VEPCO tests 34.5-kv cable used for URD primary – Tomorrow's URD report. Smith & Chiles (table) Mar. 22 *111

TOTAL ELECTRIC

see Electric Energy Marketing 4

TRANSFORMERS

Allis-Chalmers marks dedication of facilities with ribbon tying (N) Jan. 25 *127
Check on voltage drop, rise speeded with complex of curves developed with aid of computer at Con Edison. Serge Borodin (charts) Apr. 19 88
Coast-to-coast trip tests transformer shipping (N) Jan. 11 98
Detroit Edison installs contoured pole-top transformers May 31 *60
Distribution load study defines load and loss factors. Propst & Gangel (charts & table) May 3 *74
Double-dose testing for 500-kv transformer (N) Jan. 11 *96
15 to 69 kv-'dry' instrument transformers. Touchette & Whipple (table) Mar. 22 *138
Filter transformer-oil for less. Michael Corrigan May 17 *112
GE develops new instrument transformer line (N) Mar. 15 *36
Moisture removal, oil impregnation of transformers speeded (N) May 10 *36
Pole-mounted auto transformers are economic. W.E. Clements & others Jan. 25 *118
Portland GE transformers buried at near pad-mount cost. E.P. Verheiden Jan. 11 *74
Prices rise (N) June 7-14, June 21 14
Rail shipment damage to transformers cut with tie-down method (N) Apr. 26 *38
RTE label marks warranted transformers (N) June 28 *114
Separable connector key to submersible residential transformer. A.R. Waehner Apr. 5 *69
735-kv transformer developed and tested. J.W. Dix Mar. 8 *70
Soil heat tests yield useful thermal data for Arizona PS. J.F. Thomas Feb. 22 *90
Southern California Edison's distribution transformer load management study brings savings. K.J. Bom Feb. 1 *26
Spray-nozzle clamp fits all transformers. V.H. Kirby Feb. 8 *96
TVA awards Italian manufacturer transformer order (N) June 28 42
Transformer-pole design cuts installation costs for Toledo Edison. Len Daum June 28 *110
Vacuum interrupter on load tap changer (N) May 17 *124
VEPCO 500-kv transformers on Dooms-Mt. Storm leg fail (N) Jan. 11 70
VEPCO 500-kv transformer trouble explained (N) Feb. 22 88
VEPCO moves power transformers via barge. W.C. Cranford May 3 *114
Westinghouse raises some power transformer prices (N) Mar. 15 14

TRANSMISSION

AEP sees need for 1,000-kv lines by century's end. Philip Sporn & others (charts) Mar. 22 96
Alabama Power updates switches on 115-kv as capacity, other factors change. F.S. Toomer Mar. 8 *56
Aluminum 345-kv H-frames lower cost per mile for Central Illinois PS. T.N. Cofer (tables) Jan. 11 *78
Arkansas P&L foresight eases conversion upward to 161 kv. R.W. Toler May 24 *26
Audio tones protect terminals economically on Gulf States Utilities system. F.B. Larriviere Jan. 18 *28
Baltimore G&E five mile Cromwell Valley line – court overrides local board on underground line (N) June 28 41
BPA proposed 500-kv southern Idaho line – studied voted (N) June 28 39
British Columbia plans underwater dc circuit (N) Jan. 25 80

(Ed) Editorial. * Illustrated. (N) News.

California 220-kv line – overhead? underground? Congress, courts, AEC involved in dispute June 14-70 (N) June 21 11
Canada – British Newfoundland Corp suggests own lines to serve US loads (N) Apr. 26 *22
Central Illinois PS completes H-frame tower structures for 345-kv line (N) Jan. 4 13
Central Illinois PS easy handling speeds aluminum tower building. T.N. Cofer Mar. 1 *28
Cold-formed sections cut weight of transmission towers May 3 *115
Communication channels use insulated shield wires on Georgia Power system. Wood & Price Feb. 8 *56
Con Edison dc proof-tests 345-kv cable circuits Mar. 8 *58
Cornwall project – FPC weighs EHV line routes (map) May 17 *79
Eastern Regional Conservation Council organized (N) Apr. 12 12
EEI's ac/dc research project discussed (N) Mar. 15 *23
EHV transmission and distribution line construction (charts) Jan. 25 99
EHV underground cable system discussed. J.H.M. Sykes May 17 *114
FPC names eleven to underground transmission group (N) May 24 11
First things first in underground transmission (Ed) Mar. 1 5
500-kv line designs aired – IEEE session Feb. 22 *100
Five western utilities plan five-state, 230-kv link (N) May 17 39
Gulf States Utilities converts 69-kv line to 138-kv. J.E. Cryer Feb. 8 *91
Insulation advance is key to air-break switches for Hydro-Quebec 700-kv system. J.A. Turgeon (table) June 28 *104
Konti-Skan dc link between Sweden and Denmark to soon operate fully (N) Apr. 19 40
Konti-Skan 250-kv dc link readied for full load (map) May 10 *24
Lightning studies benefit spacer cables at Public Service E&G. Thwaites & Stys (tables) Mar. 8 *52
Lightning theories may change designs – IEEE session Feb. 22 99
Louisiana P&L's latticed steel structures provide for load growth. Deloney & Lancaster May 31 *42
Mexico City to switch to 60 cycles (map) June 28 84
Mississippi P&L: silhoutte of 115-kv tie line gets nod in better-home area. Palmer & Profilit Jan. 25 *86
Mountain-Midwest Power Pool forms (N) May 10 20
New Orleans PS cites cost of underground 230-kv transmission cable Mar. 22 90
New Orleans PS rebuilds transmission stringing rig. Daniel Knight Jr. May 3 *112
New York City Legislature introduces two bills requiring new lines to go underground (N) Mar. 29 12
New York State Legislature introduces two bills requiring new transmission lines to go underground (N) Mar. 29 12
New Zealand's North, South isles linked by 25-mile, 500-kv dc cable Mar. 29 *24
Northwest interties design, requirements told at IEEE meet (chart) June 14 74
Pacific Northwest-Pacific Southwest Intertie "Droopy-ears' shape proves saver (table) May 3 *80
500-kv ac activity cited to PCEA May 3 *70
HVDC grounding 'reassuring not cause for alarm', says BPA (N) Apr. 19 79
HVDC terminal contracts let (map) May 10 19
Southern California Edison contracts for intertie lines (N) Apr. 19 42
Plastic creep-effect – new towers need extra care in sagging. P.C. Evans (chart & tables) May 17 *87
Post-type insulators on concrete poles withstand broken conductor tests at Florida Power Corp. Ricketts & Fiero (chart) June 14 *80
Puerto Rico Water Resources Authority's 38-kv pilot project uses prestressed concrete poles. C.R. Abrams Apr. 5 *122
SCEC-TVA intertie energized May 24 18
STOL-type plane patrols line for Iowa-Illinois G&E May 17 *110
Southern California Edison and Arizona PS ask bids for 750-Mw units (N) Mar. 8 45
Tampa Electric network substation designed for reliable supply. T.W. Patrick June 21 *24
TVA, Southern Co. enter ten-year exchange pact (N) June 14 72
TVA's Tennessee-Misissippi line – new techniques speed construction. W.B. Richardson Feb. 15 *26
Transmission and distribution construction, by region and ownership, 1964-1965 (tables) Jan. 25 104
Transmission and distribution expenditures – thousands of dollars, 1964-1965 (tables) Jan. 25 102
230-kv underground cables supply bulk power to 400-Mva substations of Los Angeles DW&P Feb. 22 *94
Twin-conductored 500-kv transmission will link Allegheny Power's Ft. Martin station to AEP Kammer Station to Keystone system, and to VEP's Mt. Storm station. Guyker & Hileman (maps, charts & tables) Apr. 5 64
Upper Mississippi Valley Power Pool – Dakota utilities join (map) June 21 20
VEPCO energizes 500-kv line from Dooms substation to Mt. Storm station May 24 18
VEPCO evolves construction methods for 500-kv project. J.A. Rawls Feb. 8 *58
Yankee-Dixie Power Assn. plans huge pool (N) Apr. 12 11
Investor utilities may get bid to join pool (N, map) Apr. 19 79
Yankee-Dixie Power System – Only need should dictate new systems (Ed) Apr. 26 5

TURBINES

Africa's generation plans altered by defective turbine (N) Mar. 8 20
Giant bellows-type expansion joints developed for Ravenswood (N) Mar. 15 *36
Largest steam turbine completed in Japan (N) May 31 129
160-ton turbine stay-ring shipped from Baldwin-Lima-Hamilton (N) Mar. 8 *79
Peoples Utilities' gas turbine ready for season's peaking Apr. 19 *105
Power for peaking report – Injection boosts gas turbine output. Stephens & Boho (charts) May 3 *87
Power for peaking report – Jet turbine cuts cost, starts fast at Public Service G&E's Sewaren Station. J.A. Delistovic May 3 *93
Start-up temperature of turbines controlled at Florida Power. G.W. Marshall (charts) May 3 72
Taiwan to operate big natural gas-turbine facility (N) June 14 36

V

VEHICLES

Aerial buckets tested in plant at 100 kv (N) Jan. 4 *36
Articulated wheel dozers are versatile Mar. 8 *66
Backhoe-loader with swivel-seat gives driver full control (N) Apr. 5 *71
Chopper speeds clearing of ROW at Wisconsin PS Apr. 5 *92
Coal hauler cuts handling costs. R.H. Kress May 31 *125
Dayton P&L electric truck rally (N) Jan. 25 *110
Front trailer hitch for parking trailer Feb. 8 *97
Hooks provide secure tie-down during transport at Detroit Edison. Edward Rogal Feb. 8 *81
Light indicates boom position. Robert Howard May 17 *108
Mobile wheel excavator for contractors digs continuously (N) Apr. 26 *38
New Orleans PS rebuilds transmission stringing rig. Daniel Knight Jr. May 3 *112
One-man rig facilitates equipment handling. Major & Reid May 3 *109
Quick-disconnect couplings cut truck downtime. W.M. Jewell Feb. 8 *78
Robot rig speeds underground construction jobs for Southern California Edison. N.L. Clarine Apr. 5 *77
Self-propelled trailer handles six-ton reel May 31 *80
Seven-truck convoy hauls 825 fuel elements (N) Feb. 8 *68
Signs used on hydraulic boom trucks to show boom swing. G.A. Nordstrom Apr. 5 *110
Southern California Edison's work simplification program solves garage-lot problems Feb. 8 *80
Standardized truck aids line operations at Ohio Power. Winters & Parrish Feb. 22 *142
Tractor vehicle for impassable terrain Feb.8 *95

VOLTAGE REGULATION

California pioneers high voltage safety orders (Ed) Mar. 15 5
Check on voltage drop, rise speeded with complex of curves developed with aid of computer at Con Edison. Serge Borodin (charts) Apr. 19 88
Non-stop monitoring assures best feeder voltage. J.A. Hughes & others Apr. 26 *24
Westinghouse raises prices on single and three-phase regulators (N) Feb. 22 48

W

WELDING

Unique tube welding done at Ravenswood (N) May 31 *128

WIRING

National Wiring Bureau to examine programs and objectives (N) Apr. 19 94

COMPANY INDEX

Alabama Power Co – Data logger records three supervisory systems. Paul Hopkins Mar. 22 *100
Switches on 115-kv updated as capacity, other factors change. F.S. Toomer Mar. 8 *56
Allegheny Power Systems Inc – 500-kv twin conductor links Ft. Martin station to AEP Kammer Station to Keystone system and to VEP's Mt. Storm station. Guyker & Hileman (map, charts & tables) Apr. 5 64
Fort Martin station under construction in West Virginia Feb. 15 17
Largest cooling tower rising at Fort Martin Feb. 15 *36
Allis-Chalmers Manufacturing Co – Design 161-kv breakers for 25,000 Mva. McCord & Harper Jan. 11 *91
Design substations to be seen, not hidden. T.H. Progler Feb. 22 *138
500-kv shunt reactors sent to SCEC tie line (N) Feb. 1 *36
Fuel-cell systems developed for demonstration and education (N) May 17 *120
New motor line 30% lighter, 45% smaller (N) Feb. 22 *144
New top command sets sights on utility sales Feb. 8 *50
Nuclear pressure unit hoisted into position at Dairyland Power Co-op, Genoa, Wisc. site (N) Mar. 29 *36
Prototype vacuum circuit breaker developed for 15-kv switchgear (N) May 24 *36
Ribbon tying marks dedication of transformer facilities (N) Jan. 25 *127
Switchgear for Wisconsin utility (N) Apr. 19 *107
34.5-kv switchgear meets 'high rise' challenge. R.I. Carlson Jan. 25 *122
Transformer tested in coast-to-coast trip (N) Jan. 11 98
Vertical primary serves high-use apartments. McGaughey & Hall May 10 *28
Wins $3-million order for nuclear elements (N) Jan. 25 28
Allis, Louis Co – Plan to avoid large motor problems. R.L. Nailen May 31 *86
Allmanna Svenska Electriska Aktiebolaget (ASEA) – Awarded order for Tacoma hydro generators (N) Mar. 8 22
Contract for Pacific HVDC terminals May 10 19
Konti-Skan 250-kv dc link readied for full load (N) Apr. 19-40, (map) May 10 *24
Aluminum Co of America – Prepackage service facilities to lower URD costs. E.K. Duffy Mar. 22 *137
American Electric Power System – 500-kv twin conductor links Allegheny Power's Ft. Martin

(Ed) Editorial. *Illustrated. (N) News.

station to AEP's Kammer Station to Keystone system and to VEP's Mt. Storm station. Hileman & Guyker (map, charts & tables) Apr. 5 64
Intertie with Duquesne Light energized (N) June 28 39
Joint effort can triple appliance sales, Cook says (N) May 17 *106
Rebuilds after worst tornado damage May 3 *68
'Shangri-La' campaign sells air conditioning May 31 *40
Some US systems seen needing 1,000/1,100 kv by century's end. Philip Sporn & others (charts) Mar. 22 96
Stainless steel paints make more progress. E.J. Higgins June 28 *108
Tornado damage put at $4-million (N) May 3 31
American Oil Co – Oil bids to enter 'total-energy' race Mar. 1 *17
Train station operators on analog simulator. Whitesell & Bowles Apr. 5 *82
Arizona Public Service Co – Blank check issued to vendors – PPO system Feb. 22 *89
500-kv transmission line planned (N) Mar. 8 45
Soil heat tests yield useful thermal data. J.F. Thomas Feb. 22 *90
Arkansas Power & Light Co – Double-dose testing for 500-kv transformer (N) Jan. 11 *96
Foresight eases conversion upward to 161 kv. R.W. Toler May 24 *26
Meter-switch cubicle speeds 'sub' construction. R.W. Toler May 31 *58
Associated Electrical Industries, Ltd – Power station model-kits speed design June 14 *122
Atlantic City Electric Co – Conemaugh project (map) Feb. 15 *17
Diesel-generator unit starts steam station. J.M. Kovago (chart) Feb. 8 *52
Facts on contracts between utility and housing developers sought (N) Mar. 22 41

Babcock & Wilcox Co – Highest capacity package boiler developed (N) Feb. 22 *144
U.S. reactors contend strongly in Britain Feb. 22 132
Baldwin-Lima-Hamilton Corp – 160-ton turbine stay-ring shipped (N) Mar. 8 *79
Unit simplifies precision relay testing (N) Jan. 25 *124
Baltimore Gas & Electric Co – Appeals undergrounding decision (N) Feb. 22 47
Conemaugh project (map) Feb. 15 *17
Coordination is key to operation. L.T. Anstine (map & charts) May 3 101
Court overrides local board on underground line (N) June 28 41
Level gauges up visibility, cut maintenance Apr. 5 *108
Mechanized underground cable-handling cuts costs, time. C.B. Bechtel May 31 *76
Bechtel Corp – Peach Bottom nuclear plant fire damage being evaluated (N) Feb. 15 11
Boston Edison Co – Data retrieval speeds decisions. C.W. Smith Jr. May 31 *51
Light bulb mailing campaign May 3 *105
British Columbia Hydro & Power Authority – Arrow Dam contract let (N) Mar. 22 42
Dc transmission to boost Vancouver Island supply. Croft & Ellis (map & tables) May 31 *44
Plans underwater dc circuit (N) Jan. 25 80
Rejects both bids for Arrow Dam project (N) Mar. 1 14
British Newfoundland Corp – Hamilton Falls power sale – negotiations near critical stage (N) May 17 84
Negotiations over Churchill Falls power (N) Apr. 5 19
Quebec gives Brinco ultimatum on power price (N) May 10 11
Suggests own lines to serve US loads (N) Apr. 26 *22
Broken Bow Municipal Utilities – Weed growth ended with fiberglass mat Feb. 8 108
Burns and Roe, Inc – Controlled-flash-evaporation for economic dual-purpose water, power plant. Fiehn & Zizza Apr. 19 *96
Oyster Creek BWR sets 4-mill target. D.H. Kregg & others June 14 *87

Cala-Products, Inc – Construction equipment manufacturing goes national (N) Apr. 5 *72
California Dept of Water Resources – Seed-blanket reactor proposal approval seen Mar. 29 *17
Canadian ASEA Electric Ltd – British Columbia plans underwater dc circuit (N) Jan. 25 80
Carolina Power & Light Co – Cover crops ease ROW upkeep Mar. 22 *133
How to attract student engineers. D.V. Menscer Jan. 11 *73
'Step' relay aids OCB recloser coordination. Wayne Burch Jan. 25 *116
Carrier Corp – Elliott Co. division installs electric heat in new building Jan. 11 *113

Caterpillar Tractor Co – Giant hauler cuts coal handling costs. R.H. Kress May 31 *125
Central Electricity Generating Board (Great Britain) – Advanced gas-cooled reactors to be used on 5,000-Mw program (table) June 7 *23
Discuss EHV underground cable system. J.H.M. Sykes May 17 *114
Twelve 500-Mw generators being built (N) Feb. 8 *68
Central Hudson Gas & Electric Co – FPC denies directorship of Fargo Mfg to L.F. Sillin (N) May 24 11
Central Illinois Electric & Gas Co – Pushes foreign trade in landlocked areas. O.W. Pollard June 28 *101
Rockford, Ill. brightens up downtown area May 17 *83
Central Illinois Light Co – Customers help sell farm market. C.W. Cox June 14 *71
Central Illinois Public Service Co – All-aluminum H-frame tower structures for 345-kv line completed (N) Jan. 4 13
Aluminum 345-kv H-frames lower cost per mile. T.N. Cofer Jan. 11 *78
Coffeen Station, mine-mouth plant, costs $114 per kw (N) May 31 141
Easy handling speeds aluminum tower building. T.N. Cofer Mar. 1 *28
Ventilators get air-lift service Apr. 5 *94
Central Louisiana Electric Co – New designs in rubber glove protectors. W.R. Crooks Jan. 25 *114
230-Mw unit installed for $61.50/kw net. Chappuis & Kolflat Apr. 12 *24
Use cotton liners with rubber gloves. W.R. Crooks Apr. 19 *100
Central Main Power Co – Maine to have nuclear plant within ten years (N) May 10 11
Central Transformer Corp – Merger with Moloney Electric planned (N) May 24 36
Central Vermont Public Service Co – Rutland, Vt. begins switch to mercury vapor street lighting Mar. 8 64
Charleston Rubber Co – Machines developed for testing safety equipment (N) June 7 *36
Cincinnati Gas & Electric Co – 434-Mw unit contract awarded (N) Apr. 5 22
Cleveland Electric Illuminating Co – Level gauges up visibility, cut maintenance Apr. 5 *108
Offer made for Cleveland municipal (N) Mar. 1 11
Colt Industries Inc – Diesel engine of compact design (N) May 3 *118
Combustion Engineering, Inc – Awarded contract for heavy water reactor (N) Jan. 25 25
Bag filterhouse systems added to product line (N) Mar. 8 74
Third major plant expansion (N) June 28 114
U.S. reactors contend strongly in Britain Feb. 22 132
Comision Federal de Electricidad (CFE) – Mexico City to switch to 60 cycles (map) June 28 84
Commonwealth Edison Co – All-electric skyscraper will use heat-with-light concept (N) June 14 *84
Chicago area storm knocks out 200,000 customers (N) Feb. 1 11
Design for Dresden 2 disclosed May 3 *67
Marina City saves $383,000 through use of 12-kv risers (N) Mar. 29 12
Nominated for 1964 Edison Award (N) Feb. 22 88
Non-stop monitoring assures best feeder voltage. J.A. Hughes & others Apr. 26 *24
Nylon rope-within-rope cuts barge tie-up line cost. C.F. Wetzel Apr. 5 *86
Seeks permit for 714-Mw BWR, single-cycle nuclear unit at Dresden Station (N) Feb. 15 11
Storms plague utility Feb. 8 *47
Tornado-hit utility near normalcy May 10 *23
Trainer improves meter reading accuracy. E.A. Brady May 17 *110
Trench system serves 30,000 homes – Tomorrow's URD report (charts) Mar. 22 *106
Compania Mexicana de Luz y Fuerza Motriz (CMLFM) – Mexico City to switch to 60 cycles (map) June 28 84
Connecticut Light & Power Co – Merger formulated (N) May 17 80
Connecticut Yankee Atomic Power Co – Connecticut Yankee advances PWR concept. D.E. Vandenburgh & others June 14 *91
Consolidated Edison Co – All-electric development has 100 heat pumps (N) May 17 104
Builds analyzer for testing electronic tubes. C.A. Wroblewski Mar. 22 *128
Check on voltage drop, rise speeded. Serge Borodin (charts) Apr. 19 88
Cornwall project – FPC weighs EHV line routes (map) May 17 *79
Cornwall pumped-storage project clears FPC hurdle (map) Mar. 22 *89
Dc proof-test 345-kv cable circuit Mar. 8 *58
FPC approves Storm King facility in New York (N) Mar. 15 11
Forced oil cooling increases ampacity of pipe type cable – IEEE session Feb. 22 102
Giant bellows-type expansion joints built for Ravenswood (N) Mar. 15 *36
Lightweight stand for emergencies May 31 *94
Mock boiler trains future operators Mar. 29 *22
Plastic cover makes better seal May 31 *84
Ravenswood's 1,000 Mw unit on line June 14 *69
Sintered fly ash goes to market June 28 *94
345-kv cable pulled in tunnel. John Bogdanowski Feb. 8 *73
Unique tube welding done at Ravenswood (N) May 31 *128
Consumers Power Co – FPC questions private US-Canada power exchange (N) Feb. 22 45
Copperweld Steel Co – Facility replaces two demolished by tornado (N) Jan. 25 *124
Croll-Reynolds Engineering Co, Inc – Giant bellows-type expansion joints built for Ravenswood (N) Mar. 15 *36

Dairyland Power Cooperative – Nuclear pressure unit hoisted into position at Genoa, Wisc. site (N) Mar. 29 *36
Dallas Power & Light Co – Buried system – result of two year study – Tomorrow's URD report. E.R. Holcomb Mar. 22 *112
Texas-size buildings to go all electric Jan. 25 *77
Dayton Power & Light Co – Bellefontaine, Ohio accepts purchase bid for municipal systems (N) Jan. 11 38
Electric truck rally (N) Jan. 25 *110
Storm booths help speed restoration service. R.L. Stump Mar. 8 *50
Delaware Power & Light Co – Conemaugh project (map) Feb. 15 *17
Drops electric heating rebates (N) Jan. 11 37
Hyer, Frank P., Chairman, named "Engineer of the Year" (N) Mar. 8 21
Detroit Edison Co – Ease shear-pin replacement in feeder drive. J.W. Arnold Jan. 11 *89
Electric heat helps builder save on investment costs – Lurie Terrace apartment house in Ann Arbor Mar. 8 *63
FPC questions private US-Canada power exchange (N) Feb. 22 45
Flags help to avoid chipper jack-knifing. Leslie Rick Apr. 5 *104
Growth patterns studied May 17 *81
Hooks provide secure tie-down. Edward Rogal Feb. 8 *81
Installs contoured pole-top transformers May 31 *60
Mount temporary service on pedestal. Nelson & Houghton Jan. 25 *114
1.7 million meter records mechanized. N.E. Cloar June 28 *91
Rapping device keeps birds from roosting. C.H. Bell May 31 96
Shop-drill lead sleeves for less. C.P. Scheer Feb. 22 *140
Signs show boom swing. G.A. Nordstrom Apr. 5 *110
Spray-nozzle clamp fits all transformers. W.H. Kirby Feb. 8 *96
Study yields new concept for tall stack design. Smith & McCarthy (charts) June 14 *76
Tornado-hit utility near normalcy May 10 *23
Deuterium of Canada, Ltd – Heavy-water plant planned (N) Feb. 1 *22
Diamond Power Specialty Corp – Level gauges up visibility, cut maintenance Apr. 5 *108
Drexel & Co – Heberton, William B. addresses Financial Analysts Federation Convention on load growth June 7 31
Duke Power Co – Computer controls new unit's startup at Marshall Steam Station. W.S. Lee May 17 *85
North Carolina conservation groups applaud game refuge (N) Jan. 25 25
One-man rig facilitates equipment handling. Major & Reid May 3 *109
$700-million development planned (N) Feb. 1 22
Solve tough metering problem. Rupert Lail Feb. 8 *84
Utility tests new radiant heating system. J.M. Foreman Jr. May 17 *104
Vertical primary serves high-use apartments. Hall & McGaughey May 10 *28
Duncan Electric Co – Meter developments announced (N) Mar. 22 *140
du Pont de Nemours & Co., E.I. – Buried 24-kv system serves plant. F.S. Deck May 17 *90
Duquesne Light Co – Failure of a water-wall tube in a boiler curtails service (N) Jan. 18 11
Fort Martin station under construction in West Virginia Feb. 15 17
Largest cooling tower rising at Fort Martin Feb. 15 *36
Intertie with AEP energized (N) June 28 39

East Kentucky Co-op – REA approves loan for steam unit (N) Jan. 11 39
East River (Minn.) Co-op – Comptroller General may look into REA loan (N) June 14 35
East-West Intertie, Inc – Mountain-Midwest Power Pool formed (N) May 3-32, May 10 20

(Ed) Editorial. *Illustrated. (N) News.

Edison Sault Electric Co – Hydro's 55 generators converted to 60-cycle (N) June 28 *112
Electricite de France – Forced cooling uprates underground system. Rollin & Tellier Apr.19 *86
English Electric Co Ltd – 735-kv transformer developed and tested. J.W. Dix Mar. 8 *70
Twelve 500-Mw generators being built for power plants (N) Feb. 8 *68
Escanaba Municipal Electric Utility – Improvised dampers halt galloping conductors. H.P. Germanson Apr. 5 102

Ferguson, H.K. Co – Nuclear power, desalting plant announced (N) Feb. 22 *147
Fine Organics, Inc – Blend solvents for cleaning electrical equipment. J.J. Howanitz June 14 114
Fisher-Price Toys, Inc – Trimold division all-electric plant Jan. 11 *113
Florida Power Corp – Automatic load control system tests to begin (N) Jan. 4 12
Coal-handling system for Crystal River station (N) Apr. 19 106
Lighting course attracts utility employees and trade allies (N) May 31 *123
Post-type insulators on concrete poles withstand broken conductor tests. Ricketts & Fiero (chart) June 14 *80
Start-up temperature of turbines controlled G.W. Marshall (charts) May 3 72
Florida Power & Light – Gets Freedom award third time (N) Mar. 15 13
Fluor Corp. Ltd – Contract for GE fuel recovery facility (N) Mar. 1 14
Foxboro Co – Facility to house instrumentation systems activity (N) Apr. 12 36

General Dynamics – Seven-truck convoy hauls 825 fuel elements (N) Feb. 8 *68
General Electric Co – Arrester photo explained – letter June 28 5
Computer methods optimize capacity expansion. L.K. Kirchmayer & others (charts) May 3 84
Contract for Pacific HVDC terminals May 10 19
Demand meters in extreme temperature. E.G. Howe Feb. 8 66
Develops high reliability heat pump for northern markets(N) June 28 *102
Distribution load study defines load and loss factors. Propst & Gangel (charts & table) May 3 *74
European nuclear venture formed with German firm (N) June 7 12
15 to 69 kv-('dry') instrument transformers. Touchette & Whipple (table) Mar. 22 *138
Fluor gets contract for nuclear fuel recovery facility (N) Mar. 1 14
Meter developments announced (N) Mar. 22 *140
New instrument transformer line developed (N) Mar. 15 *36
Oyster Creek BWR sets 4-mill target. L.C. Koke & others June 14 *87
Power rating boosted on silicon control rectifiers Apr. 19 *96
Rome transformer plant strike still on (N) Apr. 26 14
Space above railroad urged for power lines – also suggested electrification of railroads (N) Apr. 12 *36
To service some Bunker-Ramo computers (N) May 31 129
U.S. reactors contend strongly in Britain Feb. 22 132
Vacuum interrupter on load tap changer (N) May 17 *124
Vacuum interrupters available to OEMs (N) Mar. 22 143
General Motors Corp – Diesel peaking units give economy, flexibility, F.W. Walker Jr. May 3 *96
Georgia Power Co – Communication channels use insulated shield wires. Wood & Price Feb. 8 *56
Determine power factor easily. A.C. Scott Apr. 19 99
Nominated for 1964 Edison Award (N) Feb. 22 88
Offers partnership proposal to government (N) May 3 33
Pull six no. 3/0 copper conductors simultaneously. J.C. Cox Apr. 19 *100
Gibson & Kirk Co – Electric induction melting system Jan. 11 114
Goodyear Tire & Rubber Co – Electric radiant heating system rolls on like wallpaper (N) Apr. 19 *94
Gulf States Utilities Co – Audio tones protect terminals economically. F.B. Larriviere Jan. 18 *28
Convert 69-kv line to 138-kv. J.E. Cryer Feb.8 *91
Decal signs caution linemen Feb. 22 *143
Digital-analog computers optimize dispatching. R.E. Smith & others Apr. 5 *62
Insurance provided for employees' heat pumps (N) Jan. 11 115
Light-weight, nylon-web hoist eases line work. L.B. Kent Feb. 22 *143
Linemen get air-conditioned suits. Killough & Exner Feb. 8 *87
Metal hold-strap aids high voltage deadening. R.J. Jarreau Jr. Mar. 8 *66

Hartford Electric Co – Merger formulated (N) May 17 80
Honeywell Inc – Computer system offers new control language (N) Feb. 22 *145
Houston Lighting & Power Co – Total-electric office building planned (N) May 31 *124
Hysol Corp- Epoxy splice kits simplify subsurface splicing. Lee Colbert June 14 *118

I-T-E Circuit Breaker Co – Acquires Safety Switchboard Co (N) June 14 38
Preview of new apparatus given AEIC group (N) June 14 *124
Victor Insulator expanding to meet changing utility needs (N) June 28 112
I-T-E Circuit Breaker (Canada) Ltd – Insulation advance is key to air-break switches for 700-kv system. J.A. Turgeon (table) June 28 *104
Idaho Power Co – Five-state 230-kv link planned (N) May 17 39
Intermountain Rural Electrification Assn – Ousts old board of directors (N) Feb. 15 13
International Business Machines Corp – Digital-analog computers optimize dispatching. F.E. Hebert & others Apr. 5 *62
Iowa Electric Light & Power Co – 1964 Reddy Water Heater Sales Plan increases sales. S. Dows Jr. Apr. 5 *61
Iowa-Illinois Gas & Electric Co – Selective sample testing applied to small family of meters. R.V. Marhem Feb. 22 *92
STOL-type plane patrols line May 17 *110

Jersey Central Power & Light Co – Application for three-project, 900-Mw complex atop Kittatiny Mt. Feb. 22 85
Contract for nuclear work (N) May 3 120
Oyster Creek BWR sets 4-mill target. D.R. Rees & others June 14 *87
Oyster Creek decision to be reviewed again by AEC (N) Mar. 1 12
Oyster Creek permit argued (N) Jan. 11 70
Oyster Creek safety defended (N) Mar. 8 19
Jones & Laughlin Steel Corp – Steel pipe mast-arms (N) June 21 *36
Joslyn Mfg. & Supply Co – Establishes three new sales divisions (N) May 24 42

Kansas City Power & Light Co – Mobile display carries electric heating facts to employees (N) Jan. 25 *110
Set distribution station design. W.E. Dickinson Mar. 1 *22
Vault accident (N) Feb. 15 11
Kansas Gas & Electric Co – Installs 500 ft-c lighting in own office building Mar. 8 *63
Low-voltage dc checks current-polarized directional ground relays. W.A. Wolfe Feb.8 *98
Parallel-groove live-line connector cuts outages. B.N. Ruddick Mar. 22 *126
Kentucky Utilities Co – Dc mobile radios converted for base station use. M.S. Cobb (map) June 21 *28
Safety guard warns of opening. Hatchett & Brown Apr. 5 *112
Shop-built rig drives turbine spindle May 31 *96

Lapp Insulator Co Inc – 500-kv insulators tested for Keystone Project (N) June 14 124
Light grey adopted for insulator line (N) May 17 122
Post-type insulators on concrete poles withstand broken conductor tests. Ricketts & Fiero (chart) June 14 *80
Los Angeles Department of Water & Power – Desalting project proposed (N) May 3 144
Malibu plant hearings off until June Apr. 12 *19
Malibu plant – opposition builds (N) Apr. 5 19
Malibu site faces another hurdle in California (N) Mar. 29 12
230-kv underground cables supply bulk power to 400-Mva substations Feb. 22 *94
Louisiana Power & Light Co – Latticed steel structures provide for load growth. Deloney & Lancaster May 31 *42

Maine Public Service Co – Phase transfer device cuts outage time. D.E. Gaiennie Apr. 5 *126
McDowell-Wellman Engineering Co – Mobile wheel excavator (N) Apr. 26 *38
McGraw-Edison Co – Rail shipment damage to transformers cut with tie-down method (N) Apr. 26 *38
Separable connector key to submersible residential transformer. A.R. Waehner Apr. 5 *69
Memphis Light, Gas and Water Division – Pipe-type cable lowered without splicing. W.H. Mangrum Jr. Apr. 5 *116
Meyer Machine Inc – Precambered steel pole (N) June 21 *36
Midwest Lawn-Saver Equipment Co – Experimental shock-wave optimizes URD cable plowing May 3 116
Mississippi Power & Light Co – Apartments go total electric at fast clip in Mississippi Feb. 8 *63
Guaranteed Service Plan increases water heater sales. J.L. Collins Apr. 5 *60
Silhoutte of 115-kv tie line gets nod in better-home area. Palmer & Profilit Jan. 25 *86
Moloney Electric Co – Merger with Central Transformer planned (N) May 24 36
Montana Dakota Utilities Co – Joins UMV pool (map) June 21 20
Montana Power Co – Five-state 230-kv link planned (N) May 17 39
Motorola, Inc – Alarm, control over VHF radio network. T.D. Saltzberg Jan. 11 *92

NEWAG (Lower Austrian Electric Power Co – Hohe Wand plant nears readiness. F.H. Baer (chart & table) Jan. 4 *28
NIOGAS (Lower Austrian Gas Distribution) Co – Hohe Wand plant nears readiness. F.H. Baer (chart & table) Jan. 4 *28
National Electric Power Agency (ENEL), – Italian power to look abroad for funds Apr. 19 *92
New England Electric System – Offers to acquire Western Mass Companies (N) June 14 35
New Orleans Public Service Inc – Bucket crane beats 90-ft work height. H.J. Edwards Mar.22 *133
Cost cited for 230-kv cable Mar. 22 90
Improvised tools save time. H.J. Edwards Apr. 5 *100
Leather filler eases splice through block. Milton Landry Apr. 5 *90
Non-skid strips prevent slipping Feb. 8 *108
Rebuild transmission stringing rig. Daniel Knight Jr. May 3 *112
Reports conversion to underground distribution would cost $339 million, take 20 years June 28 *81
Secure cable grip for reverse pulling. H.J. Edwards Apr. 19 *98
Telescoping rod reaches high places Feb. 8 97
Wins financing battle Feb. 15 18
New Zealand Electricity Department – North, South isles linked by 25-mile, 500-kv dc cable Mar. 29 *24
Niagara Mohawk Power Corp – AEC okay expected for Nine Mile Point plant (N) Feb. 15 19
CORE group pickets offices (N) Apr. 19 78
Locals vote system-wide strike (N) May 31 12
Nordiske Kabel og Traadfabriker – Konti-Skan 250-kv dc link readied for full load (map) May 10 *24
North American Aviation – Atomics International awarded contract for heavy water reactor (N) Jan. 25 25
Northern Indiana Public Service – Tornado-hit utility near normalcy May 10 *23
Northern States Power – Cartoon characters Homer and Roy explain rising bills to customers June 28 *85
St. Croix River plant – Wisconsin moves against Minnesota-approved plant (N) June 21 11
St. Croix River steam plant starts building June 7 *17
St. Croix site decision delayed Jan. 25 *81
Towers, structures topple in Minnesota tornado (N) May 24 *22

Oak Creek Power Co – Mountain-Midwest Power Pool formed (N) May 3-32, May 10 20
Ohio Brass Co – Giant EHV arresters pass full-scale tests (N) Mar. 1 *36
Ohio Power Co – Quick-disconnect couplings cut truck down-time. W.M. Jewell Feb. 8 *78
Standardized truck aids line operations. Winters & Parrish Feb. 22 *142
Okonite Co – 85 miles of 345-kv conductor completed (N) Mar. 29 *36
Ontario Hydro-Electric Commission – Expansion of Fairport nuclear station Jan. 4 *19
FPC questions private US-Canada power exchange (N) Feb. 22 45
Otter Tail Power Co – Container holds splicing compound. Leon Babcock May 31 *68
Device checks auto booster operation. E.B. Rolien May 31 *92
Filter transformer-oil for less. Michael Corrigan May 17 *112
Wind full reels of used wire. William Koapke May 31 *70

Pacific Gas & Electric Co – Battered Pacific utilities dig out Jan. 18 *23
'Don't pay credit' labels minimize payment errors Apr. 19 *99
500-kv ac activity cited to PGE May 3 *70

Non-stop monitoring assures best feeder voltage. W.F. Ostermeier & others Apr. 26 *24
Sargent & Lundy – 230-Mw unit installed for $61.50/kw net. Kolflat & Chappuis Apr. 12 *24
Seattle City Light – Earthquake jolts utility (N) May 17 *82
Front trailer hitch for parking trailer Feb. 8 *97
Improves residential street lighting (N) Mar. 22 *121
Repair broken leads May 31 80
Throwaways used for oil samples Feb. 8 *110
Shell Research Ltd – Hydrocarbon-air fuel cell gets workout (N) Jan. 4 *20
Siemens Halske, AG – Power rating boosted on silicon control rectifiers Apr. 19 *96
Sierra Pacific Power Co – Circular operations building is efficient Apr. 5 *118
Storm, flood damage (N) Jan. 11 *71
South Carolina Electric & Gas Co – Apprentice, graduate, supervisory training upgrades production men. V.C. Summer Jan. 25 *88
Blocking scheme solves 'coupling' problems. A.G. Daniels Jan. 11 *90
Doll stimulates safety Apr. 19 *99
Launch safety-glass program to save eyes Feb. 8 *84
Remote daily tests of directional comparison relay carrier. A.G. Daniels Feb. 8 *98
South Central Electric Companies – 500-kv shunt reactors sent to tie line (N) Feb. 1 *36
500-kv tie with TVA energized May 24 18
Southern California Edison Co – Asks bids for 750-Mw units (N) Mar. 8 45
Automated paper work cuts bill of material costs. McPhee & Woodman June 28 *86
Desalting project proposed (N) May 3 144
Distribution load management study brings savings. K.J. Bom Feb. 1 *26
500-kv ac activity cited to PCEA May 3 *70
Fossil-fuel plant for Nevada (map) Jan. 4 *19
Robot rig speeds underground construction jobs. N.L. Clarine Apr. 5 *77
Work simplification program solves garage-lot problems Feb. 8 *80
Southern Co – Branch rejects 'boycott' bid (N) May 3 66
Refuses request to boycott Alabama (N) Apr. 26 11
Ten-year exchange pact with TVA (N) June 14 72
Southern Electric Generating Co – Store pulverizer balls conveniently. J.L. Johnstone Feb. 8 *102
Southwestern Public Service Co – How we fight isolated generation. R.K. Owen June 28 *83
Puts generators at customers' plants. R.K. Owen Apr. 26 *28
Southwire Co – Continuous process produces copper rod (N) May 17 *120
Stone & Webster Engineering Corp – Computer controls, monitors Mt. Storm startup. W. Piper & others (tables) Jan. 25 *82
Connecticut Yankee advances PWR concept. W.C. Woodman & others June 14 *91
First heat balance diagram is calculated and drawn by computer. Nery & Rice Apr. 19 *90
New towers need extra care in sagging. P.C. Evans (chart & tables) May 17 *87
Sverdrup & Parcel International – New towers need extra care in sagging. P.C. Evans (chart & tables) May 17 *87

Tacoma City Light – Earthquake jolts utility (N) May 17 *82
Tampa Electric Co – Develops plan to replace obsolete incandescents Feb. 8 63
Network substation designed for reliable supply. T.W. Patrick June 21 *24
Operate rebuilt dc network analyzer out of file cabinet. M.M. Bostian Apr. 5 *124
69-kv polyethylene cable meets test. A.N. Darlington (table) May 24 24
Tel-E-Lect Inc – Giant derrick designed for live line work (N) June 7 *36
Texas Electric Service Co – Electric lift eases stores handling. R.T. Bingham Apr. 19 *98
Light indicates boom position. Robert Howard May 17 *108
Radio detects faulty voltage coil. J.H. Parsley May 31 *70
Toledo Edison Co. – Device spreads triplex cable easily. Don Dean June 14 *113
Transformer-pole design cuts installation costs. Len Daum June 28 *110
Toshiba (Tokyo Shibaura Electric Co Ltd) – Largest steam turbine completed (N) May 31 129
Turbo Machine Inc – Proximity detection and measuring system (N) May 31 *128

Union Electric Co – Hygrometer best for measuring moisture in SF_6. Aschoff & Shoulders Apr. 5 *80
Provides underground service to 1,676 new units (N) Mar. 8 46
Speed placing of lines. Conner & Miltenberger May 17 *108
US Supreme Court overturns Taum Sauk decision (N) May 10 12
Union Metal Mfg Co – Concrete street lighting standards (N) June 21 *36
First poles and lights shipped for Rockford Whiteway project (N) Mar. 1 *36
United Illuminating Co – Total-electric office building planned (N) May 31 *124
Utah Power & Light Co – Five-state 230-kv link planned (N) May 17 39
Lightning arresters proportioned to outages. K.B. Powell (charts & table) Mar. 15 28
Pole-mounted auto transformers are economic. W.E. Clements & others Jan. 25 *118

Varian Associates – Heat pump helps electronics firm eliminate dust, cut costs Mar. 8 *64
Vereinigte Oesterreichische Eisen- und Stahlwerke A.G. – Cold-formed sections cut weight of transmission towers May 3 *115
Virginia Electric & Power Co – Coal-flame scanner systems promotes boiler safety. Proffitt & Brown Jr. June 28 *88
Computer controls, monitors Mt. Storm startup. W.M. Wills & others (tables) Jan. 25 *82
Dooms to Mt. Storm leg interrupted by transformer failure (N) June 21 11
Evolves construction methods for 500-kv project. J.A. Rawls Feb. 8 *58
500-kv line from Dooms substation to Mt. Storm station energized May 24 18
500-kv SF_6 CB adaptable to many EHV levels. R.C. Van Sickle & others May 17 *92
500-kv transformers fail on Dooms-Mt. Storm leg (N) Jan. 11 70
Trouble explained (N) Feb. 22 88
500-kv twin conductor links Allegheny Power's Ft. Martin station to AEP's Kammer Station to Keystone system and to VEP's Mt. Storm station. Hileman & Guyker (map, charts & tables) Apr. 5 64
Goggle fasteners keep them handy May 31 *92
Mt. Storm Station under construction Feb. 15 17
Move power transformers via barge. W.C. Cranford May 3 *114
Nominated for 1964 Edison Award (N) Feb. 22 88
Plastic cap retards pole top rot May 31 *82
Ratchet attachment increases hoist usefulness May 17 *112
Strip polyethylene spacer-cable easily May 31 *68
34.5-kv cable used for URD primary – Tomorrow's URD report. Smith & Chiles (table) Mar. 22 *111
34.5-kv feeder system – Tomorrow's URD report (charts) Mar. 22 108

Washington Public Power Supply System – Pacific Northwest Power alleges WPPSS frustrates Federal Power Act (N) Jan. 18 13
US Appeals Court hears High Mountain Sheep project arguments (N) Apr. 26 22
Washington Water Power Co – Five-state 230-kv link planned (N) May 17 40
